THE AGRA UNIVERSITY ACT, 1926

[United Provinces Act No VIII of 1926]

[Issued by the Local Legislature of the United

Provinces of Agra and Oudh]

Received the assent of the Governor of the United Provinces of Agra and Oudh on September 11 1926 and of the Governor General on October 20 1926 and was published under Section 81 of the Government of India Act on October 30 1926

AN ACT TO ESTABLISH AND INCORPORATE A UNIVERSITY AT AGRA

WHEREAS it is expedient to establish and incorporate a University at Agra for the purpose of affiliating the colleges associated with the University of Allahabad as reorganized by the Allahabad University Act, 1921, so as to set the University of Allahabad free to function as a unitary, teaching, and residential University by relieving it of the responsibility of controlling the quality and character of the teaching given in its name by the associated colleges and placing such responsibility upon an affiliating University at Agra,

AND WHEREAS the previous sanction of the Governor General has been obtained under Section 80 A (3) of the Government of India Act, to the passing of this Act, it is hereby enacted as follows:—

1 (1) This Act may be called the Agra University Act, 1926

1—Statutes

Bachelor of Science

1 Course of Study for the B. Sc. degree shall extend over a period of two academical years and the degree examination shall be held at the end of the second academical year *Statutes

Candidates shall be required before presenting themselves for the degree examination, to have attended a regular course of study in an affiliated college for two academical years

3 Every candidate shall be required to pass in either of the following groups of subjects —

(a) Physics, Chemistry and Mathematics

(b) Chemistry, Botany and Zoology

Provided that no candidate shall be allowed to take any subject unless he has passed an examination in the corresponding subject in the Intermediate or any other examination recognized as qualifying for admission to a degree course

4 A candidate may at his option take General English or Military Science or both as an extra subject. The marks obtained by the candidate shall not be counted towards his aggregate and the class obtained by him in General English or Military Science or both shall be indicated in his diploma and notified in the Gazette

The minimum number of lectures in General English that would be delivered to candidates who offer it as an extra optional subject shall be 80 for a two years course and 40 for failures and detained candidates

The minimum number of lectures in Military Science that would be delivered to candidates who

offer it as an extra optional subject shall be 100 for a two years' course and 50 for failures and detained candidates

5 The examination shall be by means of papers, but candidates shall be required to undergo a practical examination, except in the case of Mathematics, the examination in which shall be entirely by means of papers

Candidates shall be required to pass separately in the practical examinations

Master of Science

*6 A candidate who after obtaining the B Sc degree of the University or of an Indian University incorporated by any law for the time being in force has completed a regular course of study for one academical year in an affiliated college, shall be admitted to the Previous examination for the degree of Master of Science

*7 A candidate who after passing the Previous M Sc Examination of the University has completed a regular course of study for one academical year in an affiliated college shall be admitted to the Final examination for the degree of Master of Science

8 The examination for the degree of Master of Science shall consist of two parts —

- (1) The Previous examination, and
- (2) The Final examination

9 The examinations shall be partly by means of Papers and partly practical. In Mathematics the examination shall be by papers only

10 The subject of examination shall be one of the following —

- (1) Mathematics
- (2) Physics
- (3) Chemistry
- (4) Zoology
- (5) Botany

*Doctor of Science

11 A candidate for the degree of D Sc must be either— Statutes
—contd

- (a) an M Sc (or an M A in Mathematics) of the University of at least three years standing or an M Sc (or an M A in Mathematics) of the Allahabad University of at least three years standing who at the time of passing the M Sc (or M A in Mathematics) Examination was a student of a college associated with the Allahabad University and now affiliated to the Agra University, or
- (b) an M Sc (or M A in Mathematics) of at least three years' standing of any other University recognized for this purpose by the Executive Council and incorporated by any law for the time being in force, who has been resident within the territorial limits of the Agra University for the three years immediately preceding the date of his application

12 The degree will be awarded on the basis of an original thesis submitted by the candidate upon any subject comprised within the Faculty of Science

13 The thesis submitted must be satisfactory as regards its literary form and, if not already published, must be in a form suitable for publication

*Passed by the Senate on Nov. 20, 1931.

†For purposes of admission to the D Sc degree of the University the M Sc degrees of the following Universities are recognized—

- 1 Allahabad University
- 2 Bombay University
- 3 Dacca University
- 4 Hindu University Benares
- 5 Lucknow University
- 6 Muslim University, Aligarh

(I *vide* Executive Council Resolution No. 26 of Mar. 17, 1931 and Vice-Chancellor's order dated Oct. 10, 1933)

- 7 Nagpur University

(I *vide* V.C.'s order dated Mar. 27, 1939)

Statutes
—continued

14 A candidate may not submit as his thesis any paper on the basis of which a degree has already been conferred on him by this or any other University but he shall not be precluded from incorporating work which he has already submitted for a degree in a thesis covering wider field provided that he shall indicate the extent of the work so incorporated

15 The candidate must indicate how far his thesis embodies the results of his own researches and in what respects his investigations appear to him to advance the knowledge of Science, he should also state what authorities he has utilised in preparing his thesis and should submit in support of his candidature any paper which he may have published independently or conjointly

16 Every candidate who intend to supplicate for the said degree shall (on or before the 1st of October in any year) submit his application to the Registrar stating the special subject chosen by him for the original thesis and the lines upon which the subject is to be treated. No application for admission to the said degree shall be entertained unless it is supported by two members of the Faculty of Science or by two Doctors of Science of the University or by two Doctors of Science of an Indian University incorporated by any law for the time being in force who shall have testified that the applicant is a fit and proper person to supplicate for the degree

The application shall be accompanied by a sum of Rs. 50 which shall not be refunded unless the application is rejected by the University. The balance of the fee of Rs. 200 required for the admission to the degree shall be paid at the time of the presentation of the thesis

17 The application shall be laid before the Faculty of Science which shall consider the suitability of the subject offered and, if the subject be approved shall forward the application to the Executive Council with such recommendations, if any,

as it may wish to make. If the application is entertained by the Executive Council, the Registrar shall inform the candidate accordingly.

Statutes
- *contd*

The candidate shall submit his thesis (three printed or type written copies) together with a sum of Rs 150, the balance on account of the fee. The Council shall then call upon the Board of Studies in the subject concerned to recommend the names of three persons to be constituted as a Board of Examiners.

18. If the thesis is approved by the Board, the Board shall decide whether the candidate should be required to appear before a Board of two examiners approved by the Executive Council, in order to be tested orally or practically or by both these methods, with reference to the thesis and the special subject selected by him. The Board of two examiners shall report to the Executive Council the result of the examination of the thesis and of the oral and practical examination if any, and if the Executive Council upon the report consider the candidate worthy of the degree of Doctor, they shall cause his name to be published in the Gazette.

• Bachelor of Science in Pharmaceutical Chemistry

19. A candidate who after passing the Intermediate Examination of the Board of High School and Intermediate Education, United Provinces, or of an Indian University incorporated by any law for the time being in force, or an examination recognised by the University as equivalent thereto, with Chemistry, Physics and Biology, has attended a regular course of study in Pharmaceutical Chemistry in an affiliated college for two academic years, shall be eligible for appearing at the examination for the degree of Bachelor of Science in Pharmaceutical Chemistry (B Sc Pharm).

Statutes
—*concl'd*

20 Every candidate shall be required to pass in each of the following subjects —

- (1) Pharmaceutical Chemistry
- (2) Pharmacy
- (3) Pharmacognosy
- (4) Elementary Human Physiology and Pharmacodynamics

21 A candidate may, at his option, take General English or Military Science or both, as extra subjects. The marks obtained by the candidate shall not be counted towards his aggregate, and the class obtained by him in General English or in Military Science or in both shall be indicated in his Diploma and notified in the Gazette.

The minimum number of lectures in General English that would be delivered to candidates who offer it as an extra optional subject shall be 80 for a two years' course and 40 for failures and detained candidates.

The minimum number of lectures in Military Science that would be delivered to candidates who offer it as an extra optional subject shall be 100 for a two years' course and 50 for failures and detained candidates.

CHAPTER XXXIV

PROVIDENT FUND

Subject to the provisions of this Act, the Statutes may provide for all or any of the following matters namely — Section 26 of the Act

* * * * *

- (1) the constitution of a pension or provident fund for the benefit of the officers, teachers, and other servants employed by the University,

* * * * *

Where any pension or provident fund has been constituted by the University for the benefit of its officers, teachers, or other servants, the Governor General in Council may declare that the provisions of the Provident Fund Act, 1925, shall apply to such fund as if it were a Government Provident Fund Section 38 of the Act

1 In these Statutes—

Statutes *

- (a) "Salary" means monthly salary, and includes all fixed monthly allowances by way of pay, acting or personal allowances but does not include any other allowance
- (b) "Servant" means every whole time officer or servant of the University, other than one whose services have been lent to the University by Government or who is on leave from a Government post, appointed permanently to a substantive appointment carrying a salary of Rs 30 per mensem or more

NOTE—Persons appointed on probation to permanent posts shall be eligible to subscribe to the Fund

*Passed by the Senate on Oct 22 1927 and amended on Nov 16 1934 Nov 22 1935 and also amended on Nov 19 1936 on the line suggested by Government as per letter No C/604 XV 264 1936 dated June 18 1936

Statutes
—contd

- (c) "Subscriber" means a servant on whose behalf a deposit is made under these Statutes
- (d) "Savings Bank" means the post office savings bank
- (e) "Interest" means the interest which is paid on a deposit in the post office savings bank, *i.e.*, Rs 3 per cent per annum or such as may be determined from time to time for deposits in the post office savings banks
- (f) "Dependent" means any of the following relatives of a deceased subscriber to a Provident Fund, *viz.*, a wife, husband, parent, child, minor brother, unmarried sister and a deceased son's widow and child, and where no parent of the subscriber is alive, a paternal grandparent

2 Every servant of the University shall be compelled to subscribe to the Provident Fund at the rate of 8 per cent of his salary for which an account will be opened at the savings bank. The deduction shall be made by the University upon every salary bill presented. In the calculation of this deduction fractions of a rupee of a salary shall be omitted. Subscriptions by the subscriber, when on leave on less than full pay, will be optional. The amount so deducted, together with the contribution by the University under Statute 3 below, will be deposited in the savings bank. The payments in respect of the monthly deductions and contributions shall, so far as possible, be made into the bank within two days of the receipt of the money in order that interest may accrue. The following procedure will be adopted —

The post office will open individual accounts for all the subscribers to the Provident Fund. The University will arrange that all sums to be credited to these accounts shall be sent to the post office accompanied by—

-
- (i) the post office savings bank pass book, and
- (ii) a list in the form (APPENDIX A) appended to these Statutes showing in detail the amount to be credited to each account

Statutes
—*contd*

3 The University shall make a contribution at the rate of 12 per cent in the case of subscribers drawing a salary of Rs 500 or less, 10 per cent in the case of subscribers drawing a salary of more than Rs 500 but not exceeding Rs 1,000 and 8 per cent in the case of subscribers drawing a salary of over Rs 1,000

4 Investment in post office cash certificates or in Government securities, through the post office, of the amount to the credit of a subscriber in his Provident Fund is also permissible, if the subscriber so desires, on the condition that no security of the face value of less than Rs 100 is purchased at one time and that the securities are kept in the custody of the Accountant General, Posts and Telegraphs, and the custody receipt is kept with the Registrar

The post office cash certificates, if purchased, shall remain in the custody of the Registrar

5 Subscribers to the Provident Fund on whose behalf accounts are opened at the post office under the provisions of these Statutes will not be deprived of their right to open ordinary private accounts in the post office savings bank or to purchase post office cash certificates or Government securities through the post office

*6 The Executive Council may, under such conditions as may be laid down by it, permit the payment of premia on Life Assurance Policy or Policies on the life of the subscriber out of his personal subscription to the Provident Fund Account under Statute 2 above The amount to

Statutes
contd

be deposited in the post office in the Provident Fund Account of the subscriber shall be reduced to the extent of such premia

7 Withdrawals will be permitted when a subscriber's services in the University come to an end by his retirement, resignation, death or otherwise, provided that—

- (i) no servant whose services have been dispensed with for what, in the opinion of the Executive Council, is gross misconduct, shall be entitled to receive the amount of the contribution made by the University on his behalf and the interest thereon,
- (ii) no servant shall be entitled to receive the amount contributed by the University on his behalf and the interest thereon, unless he has been in the service of the University for at least twelve months from the date he has been allowed to subscribe to the Provident Fund and has been permitted to resign his appointment

NOTE Any contribution and interest thereon withheld under this Statute shall belong to the University and shall be credited to the University account

8 In the case of severe illness of a subscriber or of a dependent, purchase of site for buildings, erection of and repairs to subscriber's own building and other urgent necessities to be decided by the Executive Council, the Executive Council may permit a subscriber to draw temporarily out of the Fund from the amount subscribed by him and the interest thereon such amount as it may deem fit, provided that the sum advanced shall not exceed six months' pay of the subscriber or the sum subscribed by the subscriber with the interest accumulated thereon, whichever is less

NOTE—The amount advanced under this Statute shall be such a sum as is divisible into twenty-four equal amounts in whole rupees

Statutes
—*contd*

9 The amount advanced under Statute 7 shall be refunded to the Fund by twenty-four equal monthly instalments. A subscriber may, however, at his option, make payment in less than twenty-four instalments or may repay two or more instalments at the same time. Recoveries will be made monthly commencing from the first payment of a full month's salary after the advance is granted. The instalments will be paid by compulsory deduction from salary or leave salary and will be in addition to the usual subscription.

10 Each subscriber must file in the office of the University a declaration in the form (APPENDIX B) appended to these statutes, showing how he wishes the amount of his accumulations in the Fund to be disposed of in the event of his death or his becoming insane.

Provided that if the subscriber has got dependents, he shall not be permitted to nominate any outsider.

The subscriber may from time to time change his nominee or nominees by a written application, duly witnessed, to the Registrar of the University. A register of such nominees shall be kept in the University Office.

11 Any sum standing to the credit of any subscriber to the Fund at the time of his decease and payable under the Statutes of the Fund to any dependent of the subscriber or to such persons as may be authorised by law to receive payment on his behalf, shall subject to any deductions authorised by the statutes vest in the dependent and shall be free from any debt or other liability incurred by the deceased or incurred by the dependent before the death of the subscriber.

12 No change shall be made in the Provident Fund Statutes of the University without first obtaining the approval of the Governor-General in Council.

*Regula
tions

1 (a) Payments towards an insurance policy, may at the option of a subscriber, be substituted for the whole or part of subscriptions to the Fund

(b) The amount of subscriptions with interest thereon standing to the credit of a subscriber in the Fund may be withdrawn to meet payments toward an insurance policy

Provided that no amount shall be withdrawn (1) before the details of the proposed policy have been submitted to the Registrar and accepted by him as suitable, or (2) to meet any payment or purchase made or effected more than twelve months before the withdrawal, or (3) in excess of the amount required to meet a premium or subscription actually due for payment within six months of the date of withdrawal

Provided further that payments towards an educational endowment policy may not be substituted for subscriptions to the Fund and that no amounts may be withdrawn to meet any payment or purchase in respect of such a policy if that policy is due for payment in whole or part before the subscriber's age of normal superannuation

2 (1) If the total amount of any subscriptions on payments substituted under clause (a) of rule 1 is less than the amount of the minimum subscription payable to the Fund, the difference shall be rounded off to the nearest rupee and paid by the subscriber as a subscription to the Fund

(2) If the subscriber withdraws any amount standing to his credit in the Fund for the purpose specified in clause (b) of rule 1 he shall, subject to his option under clause (a) of that rule continue to pay to the Fund the subscription payable under the Provident Fund Statutes

3 (1) A subscriber who desires to substitute a subscription or payment under clause (a) of rule 1

Explanation 2 A policy which has been assigned to the subscriber's wife shall not be accepted unless either the policy is first re assigned to the subscriber or the subscriber and his wife both join in an appropriate assignment

(3) The policy may not be effected for the benefit of any beneficiary other than the wife of the subscriber or his wife and children or any of them

5 (1) The policy, within three months after the first withholding of a subscription or withdrawal from the Fund in respect of the Policy or in the case of an insurance company whose head quarters are outside India, within such further period as the Registrar, if he is satisfied by the production of the completion certificate (*Interim Receipt*), may fix, shall—

(a) unless it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber, or of his wife and children or any of them be assigned, by an endorsement on the policy in Form I set forth in the Schedule to the University as security for the payment of any sum which may become payable to the Fund by the subscriber under rules 6 & and delivered to the Registrar

(b) If it is a policy expressed on the face of it to be for the benefit of the wife of the subscriber or of his wife and children, or any of them, be delivered to the Registrar

(2) The Registrar shall satisfy himself by Regulations reference to the Insurance Company, where possible, that no prior assignment of the policy exists - *contd*

(3) Once a policy has been accepted by the Registrar for the purpose of being financed from the fund the terms of the policy shall not be altered nor shall the policy be exchanged for another policy without the prior consent of the Registrar to whom details of the alteration or of the new policy shall be furnished

(4) If the policy is not assigned and delivered, within the said period of three months or such further period as the Registrar may, under clause (1) have fixed, any amount withheld or withdrawn from the Fund in respect of the policy, shall, with interest thereon at the rate allowed by the Post Office Savings Bank forthwith be paid or repaid, as the case may be, by the subscriber to the Fund, or in default be ordered by the Registrar to be recovered by deduction from the emoluments of the subscriber by instalments or other wise as the Executive Council may direct

(5) Notice of assignment of the policy shall be given by the subscriber to the Insurance Company, and the acknowledgment of the notice by the Insurance Company shall be sent to the Registrar within three months of the date of assignment

NOTE 1—Subscribers are advised to send notice of the assignment to the Insurance Company in

itself bearing the assignment endorsed thereon

NOTE 2—Subscribers who proceed to Great Britain or Ireland on quitting the service are advised that under the English Stamp Law assignments or re assignments are required to be stamped within 30 days of their first arrival in those countries

Otherwise penalty will be incurred under the Stamp Act and difficulties may arise when the policy matured for payment

5-A The subscriber shall not during the currency of the policy draw any bonus the drawal of which during such currency is optional under the terms of the policy and the amount of any bonus which under the terms of the policy the subscriber has no option to refrain from drawing during its currency shall be paid forthwith into the fund by the subscriber or in default recovered by reduction from his emoluments by instalments or otherwise as the Executive Council of the University may direct

6 (1) Save as provided by clause (2) of rule 8 when the subscriber—

- (a) quits the service, or
- (b) has proceeded on leave preparatory to retirement and applies to the Registrar for reassignment or return of the policy, or
- (c) while on leave, has been permitted to retire or declared by a medical authority to be unfit for further service and applies to the Registrar for reassignment or return of the policy, or
- (d) pays or repays to the Fund the whole of any amount withheld or withdrawn from the Fund for any of the purposes mentioned in clause (a) or (b) of rule 1, with interest thereon at the rate allowed by the Post Office Savings Bank, the Registrar shall—
 - (i) if the policy has been assigned to the University under rule 5 reassign the policy in Form II set forth in the Schedule to the subscriber and make it over to the subscriber,

- (ii) if the policy has been delivered to him ^{Regulations} under clause (1) (b) of rule 5, make ^{-could} over the policy to the subscriber

Provided that, if the subscriber, after proceeding on leave preparatory to retirement or after being, while on leave, permitted to retire or declared by a medical authority to be unfit for further service, returns to duty any policy so reassigned or made over shall, if it has not matured or been assigned or charged or encumbered in any way, be again assigned to the University and delivered to the Registrar or again be delivered to the Registrar, as the case may be, in the manner provided in rule 5 and thereupon the provisions of these rules shall, so far as may be, again apply in respect of the policy

Provided further that, if the policy has matured or been assigned or charged or encumbered in any way, the provisions of clause (3) of rule 5 applicable to a failure to assign and deliver a policy shall apply

(2) Save as provided by clause (2) of rule 8 when the subscriber dies before quitting the service, the Registrar shall—

- (i) if the policy has been assigned to the University under rule 5 assign the policy in Form III set forth in the Schedule to such person as may be legally entitled to receive it, and shall make over the policy to such person, together with a signed notice of reassignment addressed to the Insurance Company,

- (ii) if the policy has been delivered to him

5 Other servants of the University shall be given travelling and halting allowances in accordance with the scale shown in the Schedule attached to this chapter

6 In cases not covered by these Regulations the Executive Council shall decide what allowance shall be given

4. Leave cannot be claimed as of right. When the exigencies of the University service so require, discretion to refuse or revoke leave of any description is reserved to the authority empowered to grant it. Regulations
cont 1—

5. All orders recalling a servant to duty before the expiry of his leave should state whether the return to duty is optional or compulsory. If it is compulsory, the servant shall be entitled to travelling allowance to Agra but will get leave salary up to the date he joins his post.

6. A servant who remains absent after the expiry of his leave is not entitled to leave salary during the period of such absence. Wilful absence from duty after the expiry of leave involves forfeiture of appointment.

7. The power of granting leave will rest with the Executive Council. In regard to the clerical and menial staff, the Executive Council may, by regulations, delegate its powers to the Vice-Chancellor and the Registrar.

8. For every servant a service book or service roll and leave account shall be maintained by the University in the form in which they are maintained in Government offices and the Registrar shall have them kept up to date.

9. Leave may be of the following kinds which may be combined with each other, subject to limits laid down in these regulations —

- (i) Leave on full pay
- (ii) Leave on half pay
- (iii) Leave on quarter pay (on medical certificate)
- (iv) Leave without pay

NOTE 1—Casual leave is not treated as regular leave and is not debited to the leave account. Casual leave shall not be combined with regular leave of any kind.

NOTE 2—'Pay' means substantive pay and does not include acting allowance.

CHAPTER XXXVI

CONDITIONS OF SERVICE, LEAVE ETC OF
THE SERVANTS OF THE UNIVERSITY

The Executive Council—

* * * * *

(f) save as otherwise provided in this Act or the Statute, shall appoint the officers (other than Chancellor and the Vice Chancellor), teachers and other servants, of the University, and shall define their duties and the conditions of their service, and shall provide for the filling of temporary vacancies in their posts

Provided that no teacher shall be employed by the University until provision has been made for his salary in the budget of the University,

* * * * *

Regulations *

1 The regulations in this chapter apply to all permanent whole time servants of the University who are not allowed vacations, excluding those whose services have been lent to the University by Government or who are on leave from a Government post

2 Leave is earned by duty only

3 (1) A servant who resigns or is discharged from the employment of the University, cannot, if re employed after an interval, count his former service towards leave without the permission of the authority re-appointing him

(2) A servant who is dismissed or removed from the University service, but is reinstated, is entitled to count his former service towards leave unless the authority reinstating him declares that he shall not so count it in whole or in part

*Passed by the Executive Council on Oct 19 1927 and amended on April 20 1934

subject to the condition that no servant can be granted such leave for more than *two* years during the whole period of his service. No servant is entitled to leave without pay

Regulations

at least three months before the date from which leave is applied for

NOTE.—The mere submission of a medical certificate shall not entitle the applicant to avail himself of the leave in anticipation of action unless the medical certificate clearly shows that the applicant is utterly unfit to attend to his work.

18. The amount of casual leave granted to an individual in a calendar year shall not exceed 15 days

19. Casual leave may be taken in one or more instalments, as the applicant desires but shall not ordinarily exceed 10 days at a time

*20. Casual leave shall not be combined with any other kind of leave, but it may be taken either at the beginning or end of holidays, provided the period of total absence does not exceed 15 days

21. Servants belonging to the menial establishment may be granted leave under the preceding Regulations only so far as it can be done without imposing any extra cost upon the University. The leave salary of the absentee must not exceed what remains from his pay after provision has been made for efficient discharge of his duties. When the period of leave does not exceed one month in a year and the Registrar is satisfied that the leave is urgently required, extra expenditure up to a limit of half the pay of the post may be incurred

*If casual leave is taken either between two holidays or both at the beginning and end of holidays the total period of absence shall be treated as leave.

Regulations 10 The leave on full pay which a servant earns
—could is one twelfth of the period he remains on duty. He also earns leave on half pay equal to one-twelfth of the period spent on duty. A servant on entering service must put in at least twelve month's service before he can be granted leave mentioned in clauses (1) and (11) of Regulation 9

11 It will be in the discretion of the sanctioning authority to grant leave on half pay even if leave on full pay is due, if it is necessary to do so in the interests of the University

12 The maximum period of leave on full pay which a servant can take at any one time either separately or in combination with any other leave is four months

13 The maximum period of leave with allowance (on full and half pay) which a servant can take at any one time is two years. This period may be extended by six months if the extension of leave is granted on quarter pay on medical certificate under Regulation 15

14 A servant on return from leave on full pay taken separately or in combination with any other leave must remain on duty for at least six months before he can again be granted leave on full pay

15 When a servant applies for leave on medical certificate and no leave on full or half pay is due to him, leave on quarter pay may be granted to him subject to the condition that the total period for which such leave can be granted to a servant during the whole period of service shall not exceed two years

NOTE—The medical certificate shall be from the Civil Surgeon in cases in which the salary exceeds Rs 300. In cases where the salary does not exceed Rs 300 the certificate shall be from a qualified medical practitioner whose name is born on the register of medical practitioners registered under the United Provinces Medical Act (III of 1927)

16 In case of necessity and when no other leave is due, leave without pay may be granted

subject to the condition that no servant can be granted such leave for more than *two* years during the whole period of his service. No servant is *entitled* to leave without pay. Regulations
- contd

17. Applications for leave, unless they are supported by a proper medical certificate as described in note to Regulation 15 should ordinarily be made at least three months before the date from which leave is applied for.

NOTE.—The mere submission of a medical certificate shall *not* entitle the applicant to avail himself of the leave in anticipation of sanction unless the medical certificate clearly shows that the applicant is utterly unfit to attend to his work.

18. The amount of casual leave granted to an individual in a calendar year shall not exceed 15 days.

19. Casual leave may be taken in one or more instalments, as the applicant desires but shall not ordinarily exceed 10 days at a time.

*20. Casual leave shall not be combined with any other kind of leave, but it may be taken either at the beginning or end of holidays, provided the period of total absence does not exceed 15 days.

21. Servants belonging to the menial establishment may be granted leave under the preceding Regulations only so far as it can be done without imposing any extra cost upon the University. The leave salary of the absentee must not exceed what remains from his pay after provision has been made for efficient discharge of his duties. When the period of leave does not exceed one month in a year and the Registrar is satisfied that the leave is urgently required, extra expenditure up to a limit of half the pay of the post may be incurred.

*If casual leave is taken either between two holidays or both at the beginning and end of holidays the total period of absence shall be treated as leave.

B—Colleges

1—AGRA COLLEGE, AGRA

In 1818 Pandit Ganga Dhar Shastri bequeathed to the East India Company the rents of certain lands in the districts of Aligarh and Muttra for the promotion of education. In accordance with the Shastri's Will, Agra College was opened in 1823 the endowment then yielding over Rs. 22,000 a year. Subsequently Government added to the income and raised the college to its present status.

In 1888 Trustees appeal to the Agra and while the capital of the Scholarship Fund was raised from Rs. 25,000 to Rs. 58,500.

The immediate control of the college is in the hands of a Committee, two of the members of which are officials, the rest nominated by the Trustees.

OF THE COLLEGE

The college with its hostels and playing fields covers an

fine assembly hall of 60 ft across the front which can comfortably accommodate 800 persons.

The Library contains some valuable Oriental manuscripts and has been recently reorganised. Books appertaining to Science are housed in the laboratories where they are under the direct supervision of the heads of their respective departments. The Reading Room is open in the evenings as well as during college hours.

The laboratories are extensive and are well equipped for teaching purposes, and for research.

Two scholarships are awarded every year for research in Chemistry. During the last five years nearly 40 original
tment of Chemistry.

cently arrangements
have been made for further research work in Spectroscopy
in the department of Physics. In the department of Zoology
an Aquarium has been provided with a modern aeration
apparatus for research work on different aspects of the
Biology of fishes. Investigation on the rusts of wheat and
barley started by the Professor of Botany in the year 1923
and financed by the Imperial Council of Agricultural Research
for the last 10 years are nearing completion and a scientific
monograph dealing with that work is in the course of
publication.

The interests of the students outside the class-room are partly provided for by dividing them (whether hostellers or day scholars) into 18 tutorial groups, each under one to three members of the staff. Every new student is allocated to a group and once in a group remains there throughout his college career, so that his tutor has a personal interest in him and is expected to act as his friend and adviser.

This division into groups is also the basis of organised games and results in very keen competition. There is also a Day Scholars Common Room.

Compulsory Physical Training is being carried out for the

conveniences are provided, in all cases these figures include Reading Room fee and Medical attendance. Students pay for their own electric light.

The following games are played —

Football Hockey Cricket Tennis and Volley ball. There are two playing fields and a college lawn and most of the Hostels possess Tennis courts. The college teams also take part in local and outside Tournaments. Inter tutorial matches in Football Hockey and Cricket take place among the 16 tutorial groups. Athletic sports are encouraged. Funds are obtained from a special contribution of annas 12 p m levied on every student.

The Agra and St. John's Colleges combine to form two platoons of the University Training Corps (C" Company and Battalion A F I) the other members of the Companies belonging to Aligarh. At the last Annual Camp the C Company won the long Range Shooting Cup the Annual Musketry Cup and the Miniature Range Shooting Cup.

The Civil Surgeon of Agra is the ultimate medical authority for the hostels and there is also a Sub Assistant Surgeon who visits all hostels daily and to whom all sick report. There is a medical inspection of all hostellers soon after the annual reopening of the College and the sight of new students is tested. Servants are inspected at more frequent intervals.

The College fees chargeable are —

2—ST JOHN'S COLLEGE, AGRA.

History St John's College was opened on December 16th, 1852, having been founded two years previously. In 1914 the present buildings were opened by the Viceroy, Lord Hardinge. The college is maintained by the Church Missionary Society of London and is managed by a local Governing Body, of which the Bishop of Lucknow is Chairman. Among its Principals have been its founder, T V French, first Bishop of Lahore, J P Haythornthwaite, Principal from 1890-1911, H B Durrant late Bishop of Lahore, and the Very Rev Dr A W. Davies Dean of Worcester, and first Vice-Chancellor of Agra University.

Buildings—The main building of the college in which the Arts and Commerce classes are held is one of the finest College Buildings in India and is worthy of Agra, the city of the Taj Mahal. It is an adaptation of the Mughal architecture for which North India is so famous to the needs of a modern college. It includes the Arts and Commerce Lecture rooms, the College Hall, the Chapel, the Arts Library and the Offices.

The college is fortunate in having an excellently equipped Library and Reading room. The Library is fitted with steel furniture and electric light and the Reading Room is comfortably furnished. All important books of reference are kept in open shelves and a very simple system for the issuing of books is in use. The Library is open not only during the college hours, but also for two hours in the evening. A Commerce Museum has been started and a collection of pictures illustrating the development of Indian Art.

The Science side of the college consists of the Chemistry, Biology and Physics laboratories, gas and water plants, and the Botanical gardens. The laboratories are among the best in the province and are equipped for a very high standard of work. The Physics building also contains a commodious room for the Science library.

Subjects Recognised The college is recognised for the P. A., B. Sc. and B. Com. in all subjects except Political Science and Sanskrit. For the M. A. in English, Philosophy, Economics, History, Persian, Hindi and Mathematics and for the M. Sc. in Mathematics, Chemistry and Zoology.

Students—The total number of students in the college has been 522 of whom 270 belong to the University classes. There have been 40 women students and 147 students reside in our own Hostels.

Hostels The college provides residential accommodation for over 200 students distributed in five hostels all of which are situated in the college compound. One of these hostels the Davis House, is reserved for women students. Each Hostel contains not more than 30-50 members, and is under the supervision of a Resident Warden.

Day Students The day students are divided geographically into three circles and each circle has its Warden and student officers. Each circle is further subdivided into five or six segments, each of which a member of the staff is attached as a tangent to keep in touch with the students and to encourage their activities. The conditions for them are carefully supervised.

Staff Club The college staff has a small Club House with a billiard table, four Tennis Courts and two Badminton Courts. The Club provides a centre for the corporate staff and a large staff dinner is also arranged.

Library The number of books in the College Library is about 10,000. Library is open in college hours and also for a few extra evenings and it is increasingly well used.

Research Government has continued to award a Research Scholarship in Chemistry. Five papers have been contributed to the Transactions of the Indian Academy of Sciences and abstracts of two more papers appeared in the Proceedings of the Indian Science Congress.

The Zoology Department is continuing its research work and ten papers have been published during the last year. A research student has been working during the year and the department is now specially well equipped for work in Herpetology.

The Economics Department has continued its Research and Extension work in the villages and has been co-operating closely with the District Rural Development Association in the new developments in rural work. Students have taken a larger part in the work during last year and two Rural Development Camps were successfully organised in the Christmas holidays.

Athletics—In addition to the provision for Hostel games and cricket in the college, the main element of athletics is in the hands of the Games Superintendent working with the Athletic Committee of the University Society.

Faculty Hostel and Day Students Circle has its own teams for various games and Inter Hostel Tournaments are arranged in addition to the regular matches played with neighbouring institutions.

Physical Training Physical Training is being made compulsory for Intermediate students and is now in charge of a qualified Physical Instructor.

University Training Corps The strength of the Agra detachment of the U.T.C. is two platoons. Students of both Agra and St. John's College are eligible for membership.

The armoury and the shooting range are located in the college and drills and rifle practice are held in the college grounds. The Officer Commanding is a member of the college staff.

Rover Scout Troop—The Rover Scout Troop in the college maintains its numbers and keenness and takes the lead in various forms of social service.

Social Service—The college seeks to give students some idea of the enormous possibilities of, and need for, social service. It gives them practical training which will be of use to them in the college. There is a survey of the poverty of the college. The students are taken to various parts of the college to familiarise themselves with the actual conditions under which their fellow-countrymen live. The Mark Memorial Institute is

and the Economics Department in the College is co-operating with Government in Rural Uplift work.

Old Boys—The Old Boys Society maintains connection between Old Boys and their *Alma Mater* and a Leaflet off-printed from the College Magazine is sent out to all members three times a year.

Libraries and Laboratories—The Library is divided into Arts and Science sections and contains over 9500 volumes. The stock of books is kept up to date by an annual purchase of books to the extent of Rs 2100. Books are classified according to the Dewey Decimal System with necessary modification. The Reading Room is furnished with a large number of Newspapers and Periodicals. A senior member of the staff is in charge of the Library and is assisted by two Library clerks. A student wise issue register is maintained for the students of the Intermediate Classes to ensure that each student does a sufficient amount of reading. The register is closely supervised by another senior member of the Staff.

Laboratories—The Physics, Chemistry and Biology Laboratories are furnished with up to date equipment and

Staff Club—Every member of the college staff is *ipso facto* a member of the Staff Club on payment of a monthly subscription. Its activities social and athletic have been so increased and enlarged as to prove helpful in strengthening the sense of corporate unity in the Staff.

Academic Council—The College Academic Council consisting of the various Heads of Departments has continued functioning as before. Its primary object is to associate the Senior Members of the Staff with the administrative and academic affairs of the college so as to enable the Principal to have the benefit of their experience and suggestions.

Societies and Associations—There are the following Associations and Societies—

- | | |
|-------------------------|-------------------------|
| 1. Science Association | 4. Dramatic Society |
| 2. Hindi Sahitya Samaj | 5. Commerce Association |
| 3. Co-operative Society | 6. Urdu Association |
| 7. Rover Crew | |

All the Societies continued to function satisfactorily.

College Annual Day—The College celebrated along with the Prize Distribution a common Social gathering of Staff, Students and their Guardians.

General Assembly—A General Assembly is held once a week as provided in the Time Table. At Assembly Meetings lectures are delivered by Professors, eminent educationists and others.

Educational Tours—In order to widen the mental and social outlook of students the Council of State have sanctioned a recurring grant of Rs. 600 per annum for Educational Tours.

Athletics—The management of Games is in the hands of the Principal who is assisted by the Games Superintendent and the Athletic Committee. Every student of 1st and 3rd year classes of the college has to take part in one of the three compulsory games. At present Hockey, Football and Volley ball have been included in the Scheme of Compulsory games. For the proper conduct and supervision of games and sports, members of the Staff have been divided into a number of Committees and every member has to attend the playing field according to a definite scheme.

Hostel—A modern Hostel Building to accommodate about 75 students adjoins the college building. Students make their own mess arrangements. The Hostel provides utensils. The messing charges come to about Rs. 10 p.m. The Hostel is under the personal charge of a resident Warden who is a senior member of the Staff and is under the direct supervision of the Principal. There is also a Medical Officer who looks after the health of the Hostellers. In addition a number of other facilities are provided such as Volley ball, Indoor games, newspapers, etc.

Medical Inspection—The Medical Officer of the Education Department conducts a medical examination every year of all the students. The results are reported to the guardians and to the Director of Education.

Library The College maintains an efficient Library. The total number of books added during the year is 469. There are departmental libraries in Physics, Chemistry, Biology and Drawing. For locating the books the Card Index system is used.

This year the Open Shelf System was introduced for the senior students.

Laboratories—All the three Laboratories of Physics, Chemistry and Biology are well equipped.

CHEMISTRY

The Chemical Laboratory is housed in a separate building attached to the main college building. It is fairly well equipped though the space for practical work has fallen short of requirements. There is a sufficient stock of apparatus and chemicals, charts, models etc.

The balances are sufficient in number and are kept in a separate room. There is also a separate room for the Library.

PHYSICS

The new building to house the Physics Laboratory was completed in 1933 and the laboratory was shifted to the new building in 1933-34. The new building was fitted up with water, gas and electric connections and the necessary furniture was provided for the building duly. In the new building there are two big lecture rooms, two spacious halls for Practical work, three dark rooms, two for I Sc students and one for the I Sc students, one Professors room, one staff room, two store rooms, one Photographic dark room, one Radio room, one Library room, one additional Dark room for optics and one Battery room. In all there are 14 rooms and there is also an enclosed gallery at the centre that can be utilised for practical work of the I Sc students. At a time 32 B Sc and 48 I Sc students can work in the Laboratory.

The Laboratory is provided with the necessary pieces of apparatus and the equipment is fairly good. There is an efficient workshop which contains two lathes one with 10 ft bed and the other with 3 ft bed worked by power. A good deal of apparatus for the use of the students is turned out by the workshop.

BIOLOGY

The Laboratory is housed in a separate building whose construction was completed in 1954. The generous donation of Rs. 10,000 by the late Mr. J. C. D. of his brother, the late Mr. J. C. D. has been a great help. The Laboratory consists of a dozen of rooms. There is a practical Hall which can accommodate 40-50 students at a time with great ease. A gas tap, a water tap and a sink are provided for every two students. A separate room is allotted for the museum which contains well over one thousand zoological and botanical specimens, classified and fully described in suitable show cases. There are twenty Winkel Zeiss and Leitz new microscopes for the use of the students. Besides there is a good Sartorius Rotary Microtome, a paraffin bath, a Lector Epidiascope, a Zeiss Microprojection Apparatus and a complete Zeiss Dissecting Microscope.

Attached to the Laboratory there is a small Botanical garden with two tanks and a Fern house.

Research work is also carried on in Botany especially in Morphology and Floral Anatomy. Last year two papers were published on 'Tamarix' and 'Garcinia'.

Magazine—The College Magazine occupies a place in the life of the students. It is published twice a year. The Magazine is published in two parts. The first part is the Magazine and the second part is the Supplement. It is a record of the labours put in by the Meerut College students for promoting the cause of literacy in the Meerut District.

Association—The various sections of the College Society worked with zeal and evinced a keen interest for large intellectual and social activities. The society is run by a General Secretary and Chairman of the various sections, all elected by the staff. They are assisted by the Secretaries of the various sections elected by the students. It comprises the following sections:

1. **Scientific Society**—The Scientific Society organized a Science Exhibition during the College Week. It attracted a large number of visitors from the local gentry and the students from the Arts Section of the college.
2. **Sanskrit Parishad**—A special feature of the Society is that all the proceedings are conducted exclusively in Sanskrit. Two meetings were held during the session. The Annual function could not be held.

Law Society—Organised two lectures. The first lecture was delivered by Sir N. N. Sirkar, Law Member of the Government of India and the second by Mr Bhula Phai Desai. Both the lectures were interesting illuminative and instructive.

The Athletic Association—The constitution of the Athletic Association last year underwent a change. A new rule whereby one third of the members in charge of the various activities were to retire every year was incorporated. To encourage sports a student was sent to Sat Tal for training.

Freshers' Union Seven meetings of the Union were held. At the Annual Meeting of the Union held during the College Week the O'Donnell Elocution Contest was held. Many of the speeches were very good and were appreciated by the gentry.

Professors' Academy—The Academy was in charge of Dr P. L. Dubey. Several papers were read on literary subjects. Two distinguished visitors Sir C. Y. Chintamani and Sir Syed Raza Ali gave a talk on the U. P. Tenancy Bill and the Indians in South Africa respectively.

Residence of Students This year there were three Hindu Hostels the Old House, New House and the New Blocks with a total accommodating capacity of 270 and one Mohammedan Hostel accommodating in all 76 boarders.

Administration—Each hostel is under the charge of a

under the charge of the monitors and every hostel has a senior monitor. The messes are supervised by a mess Committee which consists of the representatives of each hostel.

Physical Culture—A large number of hostellers take keen interest in physical exercises in the College Gymnasium. Besides this there are Inter hostel and Inter-ward Tournaments for different games.

Health—In college hostel full time com infectious case good throughout the year.

Hostel Library The hostels also maintain a well equipped library. The Library could prove more useful if some additional money were available.

Discipline—Throughout the year the general tone and discipline of the college was satisfactory with the exception of two rather serious incidents in which drastic disciplinary actions had to be taken.

The general and the Academic Tutorial systems both worked with considerable success.

5—INDORE CHRISTIAN COLLEGE INDORE

This institution is maintained and controlled by the General India Mission of the United Church of Canada. It was opened in 1884 as a High School and became affiliated with the University of Calcutta to the Intermediate standard in 1888 and the B.A. in 1893. Coming in 1904 under the jurisdiction of the University of Allahabad it became affiliated with that University. In 1910 it was affiliated to the M.A. standard in Philosophy. When the Agra University was established it became a part of that University.

Until October 1915 the college was known as the Canadian Mission College but in that year its name was changed and it has since been known as the Indore Christian College.

The Mission Council of the Central India Mission of the United Church of Canada is the Governing Body of the College but for all purposes of internal administration the Governing Board delegates its authority to the Local Board which consists of (a) The Principal and Vice Principal *ex officio* (b) two elected representatives of the Mission Council who are not members of the College staff (c) three elected representatives of the College staff (d) one representative of the Indian Church. The Board has power to co-opt two other members. The Principal of the College is Chairman and Executive Officer of the Board. The Board appoints its own Secretary and Treasurer. The Board deals with all matters of policy, maintains buildings, makes appointments to the staff and controls the finances of the institution.

In addition to the Local Board there is the Faculty which consists of all the senior teaching members of the staff. It concerns itself with the more strictly academic side of the institution's life and deals with such questions as preparation of time tables, examinations, promotions, discipline etc.

Most of the class rooms, the library, the offices and the staff quarters are located in Bronson Hall a 450 persons and the Vice Principal. Indore Christian. Upon there are on rooms hostel.

A fully qualified doctor visits the Hostels regularly and looks after the physical well being of the students. He also makes a physical examination of all students and advises

where treatment is needed. There is a resident medical assistant.

All Hostel students are required to join one of the Hostel messes where food is supplied at about Rs. 10 per month.

The college finances are derived from three sources:

- (a) An annual grant from the United Church of Canada which also pays the salaries of the Canadian members of staff.
- (b) Donations from Canadian and other sources.
- (c) Fees.

During the session of 1938-39 the Holkar State gave a non-recurring grant to the college.

The fees are as follows:

The college has no endowments but is able nevertheless from gifts and other sources to present prizes in General Proficiency in each class on the results of the work of each session. A certain number of freeships are also granted to poor and deserving students.

Two term examinations are held during the year and promotions to the second and fourth years are made on the basis of these and a final examination held at the end of the session.

There is a regularly appointed Superintendent of Games, and the athletic activities of the students are managed by a Students Committee with a member of the staff as President. Hockey Foot ball Cricket Volley ball Tennis Badminton and Ping Pong are all played. Practically all Hostel students and a good many day pupils also take part in games.

Organizations maintained by the students are an English Literary Society the Chandrika Society (Hindi) the Taruna Maharashtra Mandal (Marathi) the Baym e Adab (Urdu) a Sanskrit Society and a Dramatic Association. A member of the staff acts as a Counsellor to each of the organizations.

The Students Helping Fund is an organization to which each student has to pay one rupee a session. The money so raised supplemented by fines collected proceeds of dramas etc. is distributed by a Students Committee to poor students.

A magazine known as The Bulletin of the Indore Christian College is published. It has both English and vernacular sections. A manuscript Hostel Magazine is also published and there are Hindi and Marathi Manuscript journals.

During the session of 1938-39 there were in attendance 70 in the 1st year class 56 in the 2nd year 45 in the 3rd year 54 in the 4th year and 2 in the M. A. Class.

The Desai Vernacular Library has been amalgamated in the main Library of the college.

The number of books in the Poor Students Library is 400.

The college owns a nice collection of coins.

Physics Laboratory The Laboratory and the lecture room are housed in a separate building which consists of two storeys. The laboratory consists of two working rooms and a dark room for experiments in spectroscopy, galvanometers and optical benches, etc. Adjoining the lecture room is a demonstration room. The dark room can accommodate 6 students at a time and the two other working rooms can accommodate 25 students at a time.

Chemistry Laboratory The laboratory is housed in a two storeyed building. On the ground floor are (1) a practical room with working benches for 24 students, (2) another practical room with working space for 8 students, (3) a balance room for Intermediate students, (4) a balance room for B.Sc. students, (5) a room for combustion distillation etc. as part of advanced work and (6) a professor's room with two working benches. On the first floor are (1) a lecture room, (2) another practical room, (3) library room and (4) a store room.

The college has secured a petrol gas plant which will meet the increasing demand on gas which is at present being generated by two Mansfield's oil gas plants. This plant is housed in a separate shed adjoining the gas house.

The following papers have been published from the Chemistry Laboratory:

- (1) Synthesis of 2,6-Diethyl-4-pyrone and of 2,6-dimethyl-4-pyrone
- (2) Synthesis and structure of dipropionylacetone and of dimethylacetone
- (3) Reactivity of Carbolic group in pyrone and in pyridones
- (4) The concept of critical increment and Radiation hypothesis
- (5) Limit of variation of the relation between Intensity and Velocity of Photo-Chemical reactions
- (6) Mechanism der Zeretzung komplexer oxalate in Licht
- (7) Essential oil from Kewda flower

The college publishes a magazine twice a year. It is managed by the students under the supervision of the Principal.

There is an Economics Seminar of study in the college and a Historical Association under the charge of Professors of Economics and History respectively.

The college Gymkhana is conducted by the students under the general supervision and control of the Principal. It spends about Rs. 10,000 a year. The departments under the Gymkhana are Reading Room, Debating Society, Poor Student's Library, Law Debating Societies, Games, Gymnasium and Indian Akhada, Magazine, Urdu Bazar, Adab, Dramatic and Musical Associations, Saturday Club, Marathi Literary Association, Hindi Sahitya Sabha, His Highness's Birthday Celebrations, Social Gathering and Radio Entertainment.

There are four blocks of hostels within the college premises directly under the supervision and control of the Superintendent. They accommodate about 85 boarders. The boarders run their own messin' club. The college charges Rs. 28.00 per month for each room and its furniture and the actual amount of the electric current consumed by the hostels. The messin' charge varies according to the expenditure and is between Rs. 10 and Rs. 12.

The Superintendent is in charge of discipline and maintenance of order in the hostels. He is helped by four prefects who are senior students appointed by him. The Superintendent personally takes the roll call every evening at 8.00 p.m., when all the boarders must be present except those on leave.

The college provides regular games in tennis, badminton, football, volleyball, hockey, cricket, carrom, pin-pong, chess and atya patya. All undergraduate students have to play compulsorily on the college grounds one of the team games, such as football, volleyball, cricket and hockey, three times a week under the supervision of a member of the staff.

Eleven play every day in the college. Two large number of prizes also take part in cut sports tournaments and teams are sent out annually in charge of a senior professor to have experience of games in other places.

Hostels The Hostels remained in the charge of Prof V D Misra and Mr C S Pande. On account of heavy enrolment besides utilising all the college bungalows 2 new houses had to be hired bringing up the total number of college hostels to 9. The health of the students and discipline remained very satisfactory. All the usual hostel activities like the indoor sports tournament and the celebration of principal festivals were held with the usual zest and success.

Scholarships and Prizes—The Principal secured large donations for assisting poor and deserving students and the total number of students getting financial assistance from the college was 185. Government and University Merit scholarship continued to be enjoyed by the students of this college.

Extra Academic Activities—The college has the following Associations in active work.

The S D College Union has been organised on parliamentary lines to foster public speaking and debating power among the students. The Union is guided in its work and deliberations by a Chancellor from among the members of the Staff nominated by the Principal who was Prof D P Menotra. The Union celebrated the Janmasthmi and other festivals and the Union Week with great success. In Elocution the Union representatives won the Trophy in the B N Chopra All India Debate this year besides individual prizes. Several prominent speakers spoke under the aegis of the Union and the Union Cabinet showed commendable zeal in celebrating Illiteracy Day.

i. The S D C Literary Association with its membership restricted to Intermediate students is another active debating society in the College.

ii. The Political Science Association it had a very successful year of activity this session.

iii. The Hindi Parishad actively encourages a wider study and practice of Hindi literature.

iv. The Historical Association.

v. The S D C Law Association.

vi. The Sanskrit Association and

vii. the Kumar Sabha Sanatana Dharma.

Library and Museum—The Library contains about 6000 books and contributes to 27 magazines and papers. It is rapidly developing. A trained Librarian has been appointed in the provision of Ujla. The P. Gupta is

college continued a Recurring he year 1935-36 10000 were got

Library —The college has a well equipped Library in charge of a Senior Professor, and contains more than 12 000 volumes. In 1938-1939 a sum of Rs 28,213.7 was spent on the purchase of new books and journals. The Library was re catalogued according to the modified Dewey Decimal System. There is a fair collection of books on all the important subjects of study and the journals, periodicals and transactions of various learned Societies have enriched the Library all the more.

Laboratories —The Physics and Chemistry Laboratories are well equipped and afford ample accommodation. The annual expenditure is over Rs 2500. In each laboratory there is sufficient bench accommodation for 32 Intermediate and 20 B Sc students to work at a time.

Magazine —The College Magazine is remodelled and is published thrice in each session. Its aim is to reflect the life of the college. A member of the Staff is Editor in Chief and he is assisted by an Editorial Board of teachers and a Student Editor.

Associations The Academic Council consists of Senior members of the Staff. It discusses topics of academic and administrative interest to the institution and acts as an Advisory Board to the Principal. The students of the college are learning valuable lessons in organization and responsibility by running Societies. The following Societies functioned satisfactorily —The English Scientific Forum, the Philosophical, Historical and the Civics Societies, the Hindi Pracharini Sabha and the Anjuman Taraqqi Urdu. Due to various external influences the college

Union resolved for its total abolition, hence the Managing Committee held its activities in abeyance till better days

The student who obtained First Division in Inter Science was also awarded distinction in Chemistry

- (c) In addition to evening lectures and the Extension Lectures organised by the Agra University this year weekly General Knowledge lectures were instituted and examination for the whole college was held

- (d) Guardian Tutor system was introduced

Library—The Library now contains 7,729 books of which 106 were added in 1938-39. 4,262 books were issued during the session. New section in Civics was added this session

Curriculum Classes in Civics were opened for the 1st Year

Other College Activities—The usual activities of various college Societies were maintained. The Social Service League conducted night schools and opened classes in carding and spinning. A very successful Mushaira was held under the auspices of the Basm-i-Adab. The Union Society arranged for several evening lectures and debates. Standards of games were well maintained and a fair number of students participated in all games.

Hostel The hostel has been well filled and a good spirit of comradeship has prevailed under the able leadership of the Warden Mr H. B. Mundle.

Finances—The financial position of the college is still far from being satisfactory.

13—CHRIST CHURCH COLLEGE CAWNPORE

History—This college was founded in 1892 by the late Bishop G. H. Westcott M. A., D. D. who became its first Principal. College classes were at the outset held in the High School building. In 1896 the college was affiliated to the University of Allahabad up to the B. A. standard and a separate building which became the nucleus of the present college building was erected a year later. M. A. classes were opened in 1899. The college also maintained law classes for some years. In pursuance of the educational policy embodied in the Intermediate Education Act of 1921 the college became an Intermediate re-establishment in 1922. Its status began to be mooted as a combined Degree and Intermediate College. Permission to reopen B. A. classes was obtained from the Allahabad University and in July 1926 a First Year B. A. class was formed.

Additions have been made from time to time to the main building. In 1908 a Science Lecture Room and Physical and Chemical Laboratories were built. In 1911 the Reading Room was enlarged and converted into a library. The college Hall was enlarged and refurnished in 1916. Retiring Room for women students was provided in 1931 and a Common Room for men students was built in 1934.

Management etc—The college is under the general control of the Lucknow Diocesan Board of Missions and a Governing Body of which the Right Reverend the Lord Bishop of Lucknow is *ex-officio* Chairman. The expenses of the college are met from fees, Government grant and contributions made by the Society for the Propagation of the Gospel. The total recurring expenditure estimated for 1939-40 is Rs 90,815.

Instruction—The college is recognised for the Inter-

Urdu and Persian. Care is taken not to let the classes grow too big, for a special point is made in this college of allowing individual attention and great importance is attached to written work. Upon entering college every student is assigned to the special care of a member of the staff who acts as his tutor and guide. Every class up to the B. A. standard is given the benefit of reading at least some English with an English member of the staff.

15—AGRICULTURAL COLLEGE, CAWNPORE

History—The College had a small beginning and grew out of the first agricultural experimental farm in India. It started as a small school in 1893 with a handful of students intended mainly for the training of Junior revenue officers. In 1906 this school was raised to the status of a College and the original course of 2 years was elaborated into one of 3 years and a diploma in agriculture was instituted. Seven years later a Qanongo school was opened at Hardoi and with it the course of study of this College was reorganised and divided

- (ii) The section of General Science dealing with Chemistry, Physics and Mathematics
- (iii) The section of Agricultural Botany dealing with Botany, Plant Pathology and Horticulture
- (iv) The section of Agricultural Zoology dealing with Zoology, Entomology, Parasitology and Veterinary Science

The College now offers the following optional groups of subjects for the B Sc (Ag) Degree

- (1) Botany with Horticulture
- (2) Botany with Plant Pathology
- (3) Zoology with Entomology and Parasitology

On account of the rapid development of agriculture taking place in the country, the demand for higher education in scientific agriculture has increased very considerably. To have recently sanctioned fully expanded it will accommodate and 300

Aim—The courses are of very practical nature and are mainly designed to assist members of the agricultural commu-

ity who will return to manage their own land. To the larger land holders who are not directly dependent on their own exertions, the degree course offers in addition a sound education stimulating an interest in their own properties and their improvement.

Management—The College is a Government institution financed entirely by the U. P. Government through the Department of Agriculture. Its administration is vested in a senior officer of this Department who acts as its part time Principal. It has a Governing Body appointed by the Government for terms of three years, consisting of official and non official members which deals with matters relating to admissions, award of stipends, freeships and scholarships and such other matters. In academic matters the Principal is advised by an Advisory Council consisting of the research officers nominated by the Director of Agriculture and the heads of the teaching sections of the College.

College Estate—The College stands on its own ground covering an area of about one square mile. It includes an extensive agricultural instructional farm, a dairy farm and a horticultural garden. The buildings include well equipped science laboratories, lecture theatres, a large double storied library, hostels with an accommodation for 160 students, a few residential quarters for the staff, a small dispensary in charge of a qualified medical officer and the necessary dairy and farm buildings. The College estate is situated outside the municipal limit 4 miles from the Cawnpore Central station.

Library—The valuable reference library of the Department of Agriculture is managed by the Principal as its officer in charge. It contains approximately 35,000 volumes including a large number of journals, periodicals and books on agriculture and other science subjects. An annual grant of Rs. 5,000 is provided for purchase of books. The staff consists of a qualified librarian, an assistant librarian and a clerk. Two temporary typists have recently been engaged for preparing a comprehensive card catalogue. The library serves the students of the College, all the employees of the Department of Agriculture throughout the province, the universities and the members of the public.

Examination Results—17 candidates appeared at the B. Sc. (Ag.) Examination in 1938 of whom 10 passed, 4 in the first division, 3 in the second and two only in the third division.

Enrolment—There is no post graduate course at this College. The number of students in the degree classes in 1939 was—

B. Sc. (Ag.) Previous	4
B. Sc. (Ag.) Final	4

Residence—The College is a residential institution and the students are required to reside in the hostels within the College estate. Under exceptional circumstances a student may be permitted to live with his parent or guardian, provided

the latter resides within easy reach of the College or with a member of the staff

Hostels and their Management —Seven separate blocks

to accommodate 80 students with a large common room a superintendent's quarter and other accessory buildings are under construction. The hostel fees are as follows —

The management of the hostels is in charge of a few selected members of the teaching staff as Superintendents who live on the premises. One of them also looks after the students' messes. A senior Professor appointed by the Director of Agriculture acts as the Warden for general supervision of the hostels and for guiding the students in their affairs. He is nominated as the President of the Students' Union.

Students' Associations —There is a Students' Union providing facilities to the students for training in management of their own affairs. It consists of the important sections of game, social activities, library, science society and the like. The games section is in charge of a senior member of the staff as the games superintendent.

Fees —The students are required to pay the following fees —

Examination Results—The results at both the Intermediate and B A examinations 1938 have been exceptionally good and our results at both examinations were first among all the Rayawada Board colleges as well as Agra University College.

	Sent	Passed	Percentage
Intermediate	38	34	89.5
B A	23	18	78.3

Tutorial Classes—The exceptionally good results of this year and the comparatively satisfactory results of previous years justify the introduction of compulsory tutorial classes. And in order to give a greater prominence to this

rial work two tutorial periods have been introduced in the daily time table instead of one as before so that with increasing numbers there may be no difficulty in giving every student his due share of tutorial advantage

Athletic Activities—Regular drill and other games are compulsory and every boy is expected to take part in drill and in one other game

Medical Inspection—The health of the students continued to be good as was evident from the Annual Medical Inspection

General Knowledge Lectures General Knowledge lectures have been introduced for the first time in July 1938 and attendance at the same has been made compulsory. These lectures are held once a week by members of the Staff by turns and each speaks on some interesting problem of his department in a popular form. It is proposed to hold an examination at the end of the year and prizes will be given to the first two students.

Literary and Social Activities—Useful Hindi and

where all should meet and exchange views freely

To stimulate interest in students a number of societies like the Literary Society, Sanskrit Society, Hindi Society etc have been started and students are encouraged to write papers and read them out at these meetings

Library and Reading Room—The Library now continues to be open during the year on full scale. The Library and Reading Room has been made a centre of interest for the students. The Library and Reading Room is maintained by the students' funds.

Both these have proved a success, the first saves the poor students from buying their text books and second caters to students' thirst for general knowledge.

Hostel—The Hostel of the college continues to be under the wardenship of Dr A. I. Srivastava. There has been a great rush for hostel accommodation, but in spite of every effort at economising space a number of students were refused admission.

17—MAYO COLLEGE AJMER

History—The Mayo College was founded as a School in 1875 by His Excellency the Earl of Mayo, Viceroy of India, for the education of Princes and nobles and their sons. The Post-Diploma (College) Section of the Mayo College was started in 1926 with a three year course in English, History and Administration.

It was affiliated to Agra University and its Intermediate classes have been recognised by the Board of High School and Intermediate Education, Rajputana, Central India and Gwalior in the year 1936.

Site and Buildings—Two large and well appointed buildings are set apart for the exclusive use of the College Section, (1) the College (Bhawar House) and (2) the College Hostel (Cohn House)

Control and Management—The control and management of the College since 1931 has been in the hands of a General Council and a Working Committee under the general supervision of the Government of India. Members of the General Council and the Working Committee are drawn from three classes (1) Ruling Princes (2) Nominates of the Hon'ble the Resident in Rajputana and (3) Representatives of the Old Boys Association. The Principal is Secretary of the General Council as well as of the Working Committee.

Teaching Staff—The college maintains a qualified staff specially selected for its various activities of the college Section subjects. The following are the members of the Staff—

Principal

Tutorials—Weekly tutorials are arranged for every student in each subject

Library The college maintains a well stocked Library the total number of volumes amounting to about 1,530. The Library is divided into 9 sections and the books are generally arranged according to sections. It is in the charge of a member of the Staff a Senior Librarian assisted by a student Librarian.

The annual grant for the Library is Rs. 1,000.

Residence of Students All students must ordinarily reside in the College Hotel (Colvin House). In special cases

Games Games are not compulsory for students in the college Section but they are all expected to take some form of exercise every morning and evening. Ample arrangements exist for Hockey Cricket Football Tennis Squash Rackets Athletic Boxing Swimming Polo and a few other minor games. The games of college Section are managed by a Games Committee elected by the students with a member of the Staff associated with it as President.

Extra Academic Activities—The college Debating Union is run by officers all elected by the students themselves. A member of the staff has however been associated with it as Director to guide it during the early stages. The Union has held over 71 meetings in the past three years.

so far 13 numbers have appeared

For social purposes there is a Common Room in the Colvin House where arrangements are made for recreation light reading and indoor games. The Common Room is managed by a Secretary elected by the students from among themselves under the general supervision and control of the Assistant Warden.

During winter vacations tours are organised to different parts of the country. During the past four years parties of students in the charge of a Lecturer have made tours to Hyderabad and Mysore to the United Provinces & Central India and to Ceylon.

Health and Sanitation—The Civil Surgeon of Amner is the Medical Officer of the college and there is a resident Sub Assistant Surgeon to assist him. The college maintains a well equipped Dispensary of its own and there is also a separate Sanatorium for indoor patients.

(6) Vaidh Boarding House Agra (recognized under Executive Council Resolution No. 70 of September 19, 1938)

(1) —KAYASTH HOSTEL AGRA

The Kayastha Hostel Agra owes its existence to the energetic efforts of a small band of students who realising the difficulties of outside students who come to Agra for the purposes of study, brought the necessity of constructing a hostel at Agra to the notice of the Kayastha Students Association Agra. The proposal received a good deal of encouragement from the members of the community and was successfully moved in the Kayastha Conference held at Farrukhabad in 1921. From 1922 onwards it began to take a definite shape when thanks to the selfless devotion of Mr. Ashraf Ali Pleader Agra and the kind generosity of Agra College Managing Committee a suitable plot of land adjoining the hostels was obtained from the Agra College. The work of construction commenced on 1st March 1923 on which date the late Hon'ble Justice Gokul Prasad of Allahabad High Court performed the foundation laying ceremony.

The plan of the hostel consists of a double storied building of 60 single seated rooms 30 each in two rows with a big hall and 16 rooms in the middle connecting the two blocks. Up till now 25 rooms have been constructed with the generous help of the Kayasth community. The Government of U.P. also was pleased to contribute Rs. 10,000 towards the cost of the building.

Management—The hostel is managed like other recognised hostels of the Agra University. It has a warden Mr. Lalit Prasad Saksena, Lecturer in Chemistry Agra College who

as General Secretary of the Kayastha Association Agra is subject to its direction in the matter of administration. It is, besides, under the general supervision of the Principal, Agra College who arranges inspection every fortnight and gives his valuable suggestions.

The Medical Officer of the hostel is Dr Ram Swarup Saksena who takes a keen interest in the health of the inmates and looks after the general sanitation of the hostel.

The donations for the construction of the hostel are raised only from people belonging to the Kayasth community but it is not a sectarian institution in so far as it is open to members belonging to all castes and creeds. The examination results of the students residing in the hostel have been uniformly brilliant.

(A) DIGAMBAR JAIN BOARDING HOUSE, AGRA

The foundation stone of the Digambar building was laid in the year 1908 but it began to be used as a Boarding House only in 1916 when eight rooms were ready.

At present there are 34 seats. Rooms are all single seated with the exception of one which is larger than the others and is used as a double seated room. They are well ventilated and airy and all are fitted with electric light.

The Boarding house is built on an excellent site on the main road leading from the Drummond road to Jumna Bridge and has a very large compound to the east and west of the building.

It maintains two tennis courts and has a common room provided with indoor games, magazines, newspapers and a small library. Provision is also made for football and volleyball etc. There is one Jain temple in the centre which is a special feature of the hostel. The hostel also provides residential quarters for the warden.

A religious teacher has been engaged to impart religious teaching to the students free of charge.

Room rent is Rs. 4 per month and one rupee less is charged from every Jain student (i.e. Rs. 3 per month only). Light and games charges are extra. They are collected by the Boarding house but the Fund is managed by a committee of students.

The Hostel is intended principally, but not exclusively for Jain students getting education in any of the colleges at Agra.

The Boarding house has got a Trust consisting of five members. Besides this trust the hostel is under the management of a Governing Body with Shri Sri Mahendrajai as its Secretary.

The inmates of the house have been maintaining good health and they have shown good results at the various examinations.

Besides fees other sources of income are subscriptions and donations by the community and the Hostel authorities have to spend a good deal of money for the welfare of students. A garden and lawns are maintained for the sake of good health. Plain living and high thinking being the motto of the hostel great attention is paid to the every day life of each individual boarder and every effort is made to regulate their lives in such a way as to make them healthy, intelligent, moral, social and religious.

(J) — PATHAK BRINDABAN VEDIC ASHRAM (CHOUBEY HOSTEL) AGRA

The Pathak Brindaban Vedic Ashram was founded in 1897 by the late Raja Jai Kishan Das Bahadur C.S.I. in memory of his father.

The management of the hostel was put under the control of a Board of Trustees of which Raja Jai Kishan Das was the life President.

After the death of Raja Jai Kishen Das his son the late Raja Parmanand worked as President of the Trust. Since January 1924 his grandson Kunwar Jagdish Prasad C S I, C I F O B F I C S has been working as the President.

The hostel is open to the admission of Brahmin students preference being given to Chaturvedi Brahmins. Under certain conditions non Brahmin students may also be admitted.

The students residing in the hostel get rooms free of rent and several other facilities.

(5)—HINLAY BHARGAVA BOARDING HOUSE AGRA

The Bhargava Hostel was established in 1880. Pandit Girdhar Lal a prominent member of the Bhargava community

was one of the donors of this foundation. The Hostel is primarily meant for the students of the Bhargava Community but other Hindu students who are strict vegetarians are admitted.

The Hostel contains 20 large rooms and provides accommodation for 40 students. There is a big central hall for holding meetings and playing indoor games. Provision is made for Tennis Volley Ball Badminton and for Gymnastic exercises. The Bhargava Community budgets a handsome amount each year for the upkeep of the Hostel.

The warden lives in the Hostel premises and the warden's quarters were created from the grant of Rai Prag Narain Bhargava Bahadur on the occasion of his son's marriage in February 1914.

(6)—VAISH BOARDING HOUSE, AGRA

At first only the two wings, North and South were added about the year 1900. Afterwards in the year 1924 another wing was added by the donation of various generous Vaish donors and their names are put on the door of each room in marble tablets. Up to the year 1912 students of school classes were also allowed to live in the Hostel. In the year 1912 it was recognised by the Allahabad University and hence only College students were allowed to live. The house was fitted with electricity as soon as Agra Electricity Supply Co. started work. Preference is given to Vaish students but other castes are not prohibited.

Management—It is under the control of Vaish Maha Sabha (the present Head Office is at Meerut). For efficient working the Vaish Maha Sabha appointed late Lala Prag

Narain to deal with all local matters who appointed a small committee of the following —

Rai Bahadur I. Kanhya Lal B.A., LL.B., L. Lawms
Narain Garg B.A. LL.B., L. Jado Rai B.A., LL.B.
I. Babu Lal Mehta B.A. LL.B. Professor B. L.
Vaishya (Agra College) with the warden
as the Secretary and L. Prag Narain as the
Chairman

The accounts are directly submitted to the Vaish Maha Sabha by the warden

Library and Reading Room—There is a library having 1000 books. The hostel grants about Rs. 100 every year out of which about Rs. 50 is spent on books and the rest for papers and magazines. The details of expenditure are prepared by the library Committee consisting of the four monitors and the librarian in consultation with the inmates of the house, subject to the approval of the warden.

Games—The Hostel gives about Rs. 100 yearly towards the games over and above the material supplied by the College. The budget is prepared by the Games Committee consisting of the Captains of various games and General games secretary, subject to the approval of the warden. There are number of indoor games also. There are also single bar and parallel bar for those who have a taste for them.

Religious activities—There is a Shiv Temple in the Hostel and religious minded students perform Sandhya, Havan and Puja which has a very good effect on the morale of the students.

(For the Previous and Final Examinations of 1941)

There shall be eight papers, out of which a candidate shall be required to take four papers in the Previous and four papers in the Final Examination as specified below —

I Of the following three papers, either (a) or (b) shall be taken in the Previous and *the other* and (c) in the Final Examination —

(a) Principles of Economics

(b) History of Economic Thought, including the History of Socialism

(c) Essay

II Of the following papers, *any three* may be taken in the Previous and *any two out of the remainder* in the Final Examination —

(a) Economic Development and Present Economic Conditions of India and England

(b) Financial Organization

(c) The State and Economic Welfare

(d) Labour Problems and Social Welfare

(e) Rural and Municipal Economics

(f) Theory and Practice of Statistics

(g) Co-operation

(h) Transport

(i) International Trade and Foreign Exchange

NOTE—Books marked with an asterisk (*) to be read others only to be consulted

Paper I (a) *Principles of Economics*—Theory of consumption Natural resources human beings, and capital goods as economic factors Theory of population Organization of industry Industrial combination Markets and trading Theory of value Joint product prices Monopoly price Discriminating price Money and prices Credit and banking International trade and foreign exchange Theory of distribution Taxation Speculation Organised markets Forms of business organisation Control of monopolies Principles of Economic Planning

Books recommended—

MATHEMATICS

(Same as for M Sc)

B Sc EXAMINATION, 1941

MATHEMATICS

There will be *three* papers —

I (a) *Algebra* — Inequalities, Simple continued fractions, Elementary theorems on convergence and divergence of series, Binomial theorem for any rational index, Exponential and logarithmic series, Partial fractions and easy determinants

(b) *Analytical Geometry* — Straight line, circle, parabola, ellipse, hyperbola and the reduction of the general equation of the second degree to standard forms. The above to be treated by rectangular and polar co ordinates only

(c) *Trigonometry* — Inverse trigonometrical functions, De Moivre's theorem, summation of trigonometrical series, hyperbolic functions, expansion of trigonometrical functions

II (a) *Differential Calculus* — Limits, differentiation of a function of a single variable, successive differentiation, use of Taylor's and Maclaurin's theorems, indeterminate forms, maxima and minima for a single variable, partial differentiation, tangents, normals, asymptotes, double points, curvature, envelope and simple curve tracing

(b) *Integral Calculus* — Standard forms, methods of substitution, Integration by parts, and easy reduction formulae. Rectification of plane curves, quadrature, surfaces and volumes of solids of revolution

(c) *Differential Equations* — Ordinary differential equations of first order and first degree, and linear equations with constant co-efficients

III (a) *Statics* — General conditions of equilibrium of a particle and of a rigid body under the action of forces in one plane, virtual work, friction, centre of gravity, common catenary, Hooke's Law

(b) *Dynamics of a Particle* — Velocity and acceleration, Newton's Laws of Motion, work and

rectilinear motion projectiles in vacuum circular and harmonic motions simple and cycloidal pendulums impact

(c) *Hydrostatics*—Fluid pressure pressure on immersed surfaces conditions of equilibrium of a floating body centre of pressure

Or

Elementary Astronomy—Celestial sphere fundamental definitions the Earth the Sun and the solar system determination of the first point of Aries the Moon Eclipses Time determination of terrestrial latitude and longitude by simple methods

NOTE—No knowledge of Spherical Trigonometry is required

Books recommended—

PARKER *Astronomy*

BARLOW AND BRIAN *Mathematical Astronomy*

PHYSICS

The examination will consist of *two* papers and a practical test. Candidates must obtain minimum pass marks in the practical examination as well as pass in the total of the theory papers.

The subjects of the papers will be—

Paper I General Properties of Matter Sound and Heat

Paper II Light Electricity and Magnetism

The following is the Detailed syllabus—

General Properties of Matter—Law of Gravitation Elementary problems on attraction c/g attraction of a sphere and spherical shell on internal and external points attraction of a disc and attraction of any closed surface on a point just outside Definition of potential and its determination in simple cases Definition of equipotential surface and lines of force and elementary propositions connected therewith Definition of Elasticity—Hooke's Law Modulus of rigidity Young's Modulus Theory of the bending of a rod supported at both ends Bulk modulus Definition of Moment of Inertia and Radius of Gyration Calculation of Moment of Inertia of a sphere a rectan

gular bar and a cylinder about any axis Boyle's Law Modern vacuum pumps Oscillations of a simple pendulum and simple harmonic motion Compound Pendulum Surface tension and its determination Definition of Viscosity Determination of the viscosity of liquids and gases by the flow through a capillary tube Units and dimensions Determination of the Gravitation constant

Sound — Nature of sound waves Determination of velocity of sound Its connection with the elasticity and density of the medium Reflection and refraction of sound Lissajous Figures Vibrations of strings and columns of air Forced free and maintained vibrations Resonance Methods of determining the frequency and wave length of notes Interference of sound waves Application of the equation $Y = a \cos \frac{2\pi}{\lambda} (vt + x)$ to problems of interference Doppler's principle Experimental methods of analysing complex sounds Musical scales and Temperament

Heat — Construction and theory of thermometers Coefficients of expansion and their variation with temperature Unit of heat and calorimetry Specific heat Latent heat Vapour pressures and their determination Hygrometry Radiant heat Its reflection refraction absorption and emission Prevost's theory of exchanges Conductivity Comparison and simple determination of conductivities of solids Deduction of simple gas laws from kinetic theory of gases Change of state and critical temperature Van der Waal's equation Determination of mechanical equivalent of heat First and second laws of thermodynamics Indicator diagrams Carnot's Heat engine Cycle of a real steam-engine Thomson's Scale of temperature Entropy The four thermodynamic relations and the latent heat equation

Light — Determination of the velocity of light Elementary mathematical formulae relating to the reflection and refraction of light Thin lenses and combinations of lenses Dispersion and spectrum analysis The construction of achromatic lenses Telescopes and microscopes Ramsden's and Huyghen's eye-pieces Elementary knowledge of the structure of the eye and defects of vision

Undulatory theory of light Rectilinear propagation of light Deduction of the laws of reflection and refraction Interference of light Newton's Rings and colours of thin films Michelson Interferometer Diffraction Grating Double refraction in uniaxial crystals Plane, circularly and elliptically polarised light Rotation of plane of polarisation Use of polarimeter

Magnetism—Laws of Magnetic Force Magnetic Potential Potential and force due to a small magnet and a magnetic shell Action of one magnet on another Magnetic Induction

Susceptibility and permeability Hysteresis Ferro Para and Dia magnetism Terrestrial Magnetism Determination of H and dip

Electricity—Laws of electro static force and their experimental proof Electric field Gauss's Theorem Potential and its calculation in simple cases Condensers and calculation of capacities Electro static Induction Dielectric constant Tubes of force and energy of the electro static Field Quadrant and absolute electrometers. Frictional and Inductive machines Electrostatic Units

Primary secondary and standard cells Magnetic Fields due to electric currents Electro-dynamics Galvanometers Ohm's Law Krichoff's Laws Properties of conjugate conductors Measurement of Resistances Potentiometer Joule's Law Thermo-electricity Peltier and Thomson effects Thermo electric diagrams Electro magnetic Induction Self and Mutual Inductances Growth and decay of currents Induction coil Alternating currents Impedance and Reactance Power Factor Choke Coil and Transformer Electrolysis and Electro-chemical Equivalents Absolute and practical units and their dimensions Elementary Theory of Dynamos and Motors, Electric Oscillations Generation and detection of electro magnetic waves and their relation to light Three electrode valves Characteristic curves Crystal and single valve receivers Discharge of electricity through gases Cathode rays, Determination of $\frac{e}{m}$ and charge of electrons X rays, Elements of Radio activity, Isotopes

EXPERIMENTS IN PRACTICAL

- (20) Determination of Wave-length by a Diffraction Grating
- (21) Determination of H
- (22) Magnetic Maps of Straight and Circular Currents
- (23) Variation of the Magnetic Field due to a Circular Current along the Axis
- (24) Comparison of Γ , M , Γ' 's by the Tangent Galvanometer

- (25) Determination of Specific Resistances
- (26) Determination of the Resistance of Galvanometer by Thomson's method
- (27) Determination of the internal resistance of a Cell by Mance's Method
- (28) Resistance of Accumulators
- (29) Potentiometer
- (30) Determination of J by the Electrical method
- (31) Reduction Factor of a Tangent Galvanometer
- (32) Determination of the Coefficient of Viscosity of a liquid

And any five of the following —

- 1 Searle's method for Young's Modulus and Modulus of torsion
- 2 Surface Tension either by Jäger's method or by the detachment of a plate
- 3 λ by Clement and Desormes's method
- 4 Conductivity of a metal
- 5 Kundt's tube
- 6 Melde's Experiment
- 7 Photometry
- 8 λ by Biprism or Lloyd's mirror
- 9 λ by Newton's rings
- 10 Determination of the strength of Sugar solutions by a Polarimeter
- 11 Comparison of Capacities
- 12 Dip by Earth Inductor
- 13 Carey Foster's Bridge
- 14 Platinum Resistance Thermometer
- 15 Characteristic Curve of a Triode Valve

Physical Chemistry—Atomic theory, Atomic weights, Valency, and chemical formulae. Diffusion, osmosis, and colligative properties. Kinetic theory of gases, and chemical equilibrium. Thermodynamics. The properties of the various elements. Methods of determining atomic and molecular weights. Kinetic theory of gases. Laws of reaction rates and applications. First and second laws. Osmotic pressure, vapour pressure, and fugacity of solids, liquids, and gases. Laws of electrolysis, electrochemical equivalents, determination of conductivity, transport numbers. Analysis of acids and bases. Hydrogen ion concentration and theory of indicators. Elements of catalysis, colloids, spectrum analysis, thermochemistry, atomic structure, atomic numbers, radioactivity, and isotopes. The relation of physical properties to chemical constitution. Elements of Phase Rule.

The occurrence, preparation and properties of the following elements and their important compounds, treated especially with regard to the periodic classification. Outlines of the main metallurgical processes of the metals indicated, by an asterisk—Hydrogen, Argon, Helium, Li, *Na, *K, *Cu, *Ag, *Au, Mg, Ca, Sr, Ba, Ra, *Zn, Cd, *Hg, B, *Al, C, Si, Sn, *Pb, N, P, As, Sb, Bi, O, S, Cr, F, Br, Cl, I, Mn, *Fe, Co, *Ni, and *Pt, Principal chemical manures. Outline of the nitrogen cycle.

Practical—Qualitative analysis of mixtures of substances containing not more than four of the following radicals, positive or negative, by dry and wet methods.—

NH₄, Na, K, Mg, Ca, Sr, Ba, Zn, Mn, Ni, Co, Al, Cr, Fe, Cu, Bi, Hf, Cd, As, Sb, Sn, Pb, Ag, CO₂, S, SO₂, SO₃, I, Cl, Br, J, NO₂, NO₃, ClO₃ also borate acetate, oxalate phosphate

Acidimetry and alkalimetry, iodometry (using thiosulphate, arsenite, permanganate and dichromate) Titration of iron with potassium permanganate and dichromate standardization of permanganate by oxalic acid The volumetric determination of silver as chloride and as thiocyanate

Gravimetric estimation of Br, Cu, Ag, Pb, Zn, Fe, chloride and sulphate

Organic—The rise, development and characteristics of organic Chemistry Methods of purification and tests of purity of organic substances Methods of ultimate analysis, qualitative and quantitative Determinations of empirical formula and molecular weights Structural formula Homology and Isomerism The occurrence preparation, properties and structure of the following—

Acyclic hydrocarbons, saturated (up to pentane) and unsaturated (the first members) The petroleum industry Halogen derivatives mono-, di-, tri-, tetra-, etc

Alcohols saturated (the first four) industrial alcohol Fermentation, and elementary knowledge of enzymes yeast, bacteria and moulds Glycol, glycerol and their derivatives Manufacture of glycerol and its nitrates

Ethers Aldehydes and ketones

Monobasic fatty acids saturated (up to butyric) Vinegar, soaps, candles, manufactures, Oils and fats Acid halides acid anhydrides amides and esters

Mercaptans

Amines nitro paraffins Cyanogen and derivatives Urea

Organo metallic compounds of zinc and magnesium

Haloid acids cyanacetic acid, amino acids Hydroxy monobasic acids (glycollic and lactic) Optical isomerism Ketonic acids (aceto-acetic) Tautomerism

Dibasic acids (carbonic, oxalic, malonic and succinic) and derivatives Acids malic and tartaric

Acid citric

Glucose, fructose, starch and cellulose (only a general view of occurrence, properties and reactions).
Main sources of gas, sugar and other derivatives.

Learn their occurrence and general characteristics in elementary way.

Cyclic aromatic hydrocarbons: benzene, toluene and naphthalene. Coal gas and coal tar distillation. Characteristics of aromatic compounds. The following derivatives of the above three: the halogen, the nitro, the amino, and the sulphonyl. The diazo reaction.

Phenol, catechol, resorcinol, pyrogallol, quinol, and the naphthols. Benzyl alcohol, benzaldehyde, acetophenone, benzophenone, quinone, benzoic acid, benzoyl chloride. Salicylic and phthalic acids.

Paraffine

Practical —

Systematic identification of the following organic compounds, including (1) the determinations of their boiling or melting points, (2) the detection of the elements contained, (3) the application of tests characteristic of the groups contained and of the compounds themselves, and (4) wherever possible, the preparation of a derivative in a pure condition —

Benzene, naphthalene, methanol, ethanol, glycerol, phenol, formaldehyde, benzaldehyde, acetone, pyrogallol, acids formic, acetic, oxalic, tartaric, citric, benzoic and salicylic, ethyl acetate, glucose, sucrose and starch, chloroform, iodoform, B bromonaphthalene, urea, aniline

Books recommended—

ZOOLOGY

The examination will comprise *two* papers and a *practical* examination. Candidates must obtain the minimum pass marks in the practical examination as well as in the total of the theory papers.

The following Syllabus is prescribed —

The general principles of Biology treated in an elementary manner, comprising the theory of evolution with the general notions of variation, heredity and adaptation.

The elementary principles of the geological and geographical distribution of animals.

The structure and the phenomena of the animal cell.

Reproduction sexual and asexual Parthenogenesis
 Metamorphosis, Alternation of Generations

The structure habits development and the economic importance (if any) of the non chordata as illustrated by—

- | | |
|-----------------|---|
| Protozoa | Amoeba Paramecium Euglena and Malarial parasite |
| Porifera | Sycon or any other sponge |
| Cœlenterata | Hydra Obelia |
| Platyhelminthes | Liverfluke and Taenia |
| Annulata | Pheretima Nereis and Leech |

Echinodermata	Starfish (general characters and external features only)
Arthropoda	Prawn Locust (if not available, Cock roach), Anopheles, Housefly, and Scorpion
Mollusca	A fresh water Mussel, and Pila or any other Pond Snail

The principal characteristics, structure and habits of the Chordata as illustrated by—

Acrania—

Hemichorda	.. Balanoglossus
Urochorda	Herdmania or any other ascidian
Cephalochorda	Amphioxus

Crania—

Pisces	. Scoliodon or any other Elasmobranch and external features of a bony fish (skeleton excluded)
Amphibia	The Frog
Reptilia	Hemidactylus or any other lizard
Aves	Columba (The skeleton of Gallus may be substituted)
Mammalia	The general characters of the Prototheria and Metatheria, Lepus, Squirrel or Rat, Canis (skull only)

The outlines of the development of Ciona, Amphioxus, frog chick and rabbit Amnion and Allantois Placenta tion

The elementary physiology of the various organs of the animal body, as illustrated by the Frog and Rabbit

Paper I—shall comprise the non chordata, the structure of the animal cell, the subjects of Reproduction and Histology and the general principles of Biology

Paper II—The Chordata Vertebrate Embryology, Physiology, Geological and Geographical distribution

PRACTICAL COURSE

Candidates will be required to show a knowledge of simple microscopic technique and to dissect and describe the following animals —

Amœba, Paramœcium, Sycon, Hydra, Obelia, Pheretima, Nereis, Leech, Starfish (external features only), Prawn, Cockroach, Scorpion, Unio, Pila, Balanoglossus (external features only), Herdmania, Amphioxus (dissection omitted), Scoliodon or any other Elasmobranch, Frog, Lizard, Pigeon, and Rabbit, Squirrel or Rat

Osteology of dogfish, frog, lizard, fowl, rabbit, dog's skull and Echidna (limbs and limb girdles only)

Note-books containing a complete record of laboratory work must be produced at the practical examination

Books recommended—

PARKER AND HASWELL Text book of Zoology (Macmillan), Vols I and II

WIEDERSHEIM AND PARKER Comparative Anatomy of Vertebrates

BOURNF Comparative Anatomy of Animals, Vols I and II

PARKER AND BHATIA Text book of Zoology, for Indian Students

DENDY Outlines of Evolutionary Biology

BORRADAILE AND POTTS Invertebrata

S M DAS Herdmania

Gramineæ, Palmæ, Liliacæ, Musacæ, Orchidaceæ, Caryophyllacæ, Ranunculacæ, Papaveraceæ, Capparidacæ, Cruciferæ, Rosacæ, Leguminosæ, Rutacæ Euphorbiacæ, Malvaceæ, Myrtacæ, Umbelliferæ, Asclepiadaceæ, Convolvulacæ, Labiatæ, Solanaceæ, Acanthaceæ, Apocyanaceæ, Rubiaceæ and Compositæ

3 Vegetable Physiology —

- (a) An elementary knowledge of plant anatomy from the physiological standpoint
- (b) Nutrition—Chemical constituents of the plant the essential constituents of plant food, the absorption of water and dissolved substances water conduction, transpiration, Assimilation of Carbon and Nitrogen, the utilization and transference of the products of assimilation and reserve materials, special processes of nutrition
- (c) ——— General facts
- (d) Growth—General facts, ——— external influences on growth
- (e) Movements—Protoplasmic movements, imbibition movements, heliotropism, geotropism, contact stimuli and their effects, movements of irritability
- (f) Reproduction—Vegetative reproduction, sexual reproduction, including double fertilization, cross and self pollination, dispersal of fruits and seeds, germination

4 An elementary knowledge of variation, heredity evolution and plant breeding

5 Elementary plant ecology

Paper I—shall comprise the Morphology, Physiology and life histories of the Cryptogams and Gymnosperms

Paper II—shall comprise the Morphology, Physiology and life histories of Angiosperms General Plant Physiology, General Biology and Ecology

PRACTICAL COURSE

The dissection of plants and parts of plants The preparation staining and study of microscopical sections of plants and the principal varieties of plant tissues The uses of stains and other reagents and the micro-chemical reactions of protoplasm starch and cellulose with its derivatives

A practical study of the typical plants enumerated under section 2 the referring of plants and parts of plants to their appropriate position in the given schedule of classification

The description of plants and parts of plants in technical language

Simple experiments in Plant Physiology

Note books containing a complete record of laboratory work must be produced at the *practical* examination

Books recommended—

MILITARY SCIENCE

There will be *two* papers and a *practical* test —

Paper I —Military Organisation administration and tactics

This will include—

- (1) Principles of war, with historical illustrations and their application to operations in the field with special reference to Infantry, *i.e.*, Protection (Advance guards Rear guards and outposts), Attack and Defence
- (2) Characteristics of Fighting Troops Cavalry, Infantry Artillery, Aircraft Tanks and Armoured Cars
- (3) Organisation of fighting troops
- (4) Information, reconnaissance from the air and on the ground
- (5) Composition and transmission of orders (operation orders, reports and messages), means of communication in the field
- (6) Field works —cover, obstacles, trenches water supply and sanitation

Reference books—

Field Service Regulations, Vols 1 and 2 (Government publication)

Infantry Training, Vol 2 (Government publication)

Manual of Field Works (Government publication)

Manual of Military Hygiene (Government publication).

Historical Illustrations to F S R

PAKENHAM WALSH Elementary Tactics

MARSHALL FOCH Principles of War

Manual of Map reading and Field sketching (Government publication)

PENDLEBURY Tactics

Paper II —Military Law (Indian)

This will include--

- (1) Indian Army Act
- (2) Arre and investigation of charges
- (3) Court martial
- (4) Evidence
- (5) Civil offences
- (6) Duties in aid of the Civil Power
- (7) I T F Act

Reference Books—

- Manual of Indian Military Law (Government publication)
- O'Donnell Manual of Indian Military Law (abridged)

PRACTICAL WORK

The candidates will be required to pass a practical test in (a) map reading, (b) field-sketching and (c) elementary tactical exercises (platoon)

ENGLISH

(Same as General English prescribed for the B. A. Examination)

M Sc EXAMINATION

MATHEMATICS

PREVIOUS

(For the Examination of 1940)

Paper I — (i) *Algebra* — Sequence and limits, convergence of infinite series and of infinite products the expansion of Sine and Cosine in an infinite product

Book recommended—

HOBSON *Plane Trigonometry*

(ii) *Theory of Equations* — General properties of equations, relations between roots and coefficients, symmetric functions of the roots transformation of equations, algebraic solutions of the cubics and biquadratics, sums of powers of roots, Sturm's theorem, approximate solutions of numerical equations, determinants

(iii) *Vector Analysis* — Fundamental notions, addition, subtraction and multiplication of Vectors, simple geometrical and mechanical applications

Book recommended—

WEATHERBURN *Elementary Vector Analysis*

Paper II — (i) *Differential Calculus* — Theorem of mean value, Taylor's theorem, maxima and minima of functions of two or more variables, definitions of continuity and differentiability, change of variables, Jacobians

(ii) *Integral Calculus* — Improper integrals and simple tests for convergence of integrals, definite integrals including Beta and Gamma functions, multiple integrals, Green's and Stoke's theorems, volumes and surfaces of solids, use of Fourier's series

- (iii) *Differential Equations*—Ordinary equations of the first order general linear equations with constant coefficients linear equations of the second order including transformations to standard forms and variation of parameters homogeneous equations and exact equations simultaneous differential equations with constant coefficients total differential equations partial differential equations of the first order

Paper III —(i) *Analytical Geometry of three dimensions*—Plane straight line reduction of the general quadratic equation to standard forms properties of a quadric surface referred to its principal axes

- (ii) *Analytical Geometry of two dimensions*—Homogeneous coordinates, tangential coordinates, families of conics invariants and covariants

Paper IV —(i) *Analytical Statics*—Strings in two dimensions, centres of gravity virtual work, stability, systems of forces in two or three dimensions

- (ii) *Dynamics of particles in two dimensions*—Central forces, motion in a resisting medium constrained motion about a fixed and revolving curves

FINAL

(For the Examination of 1911)

The examination shall consist of four papers as follows —

COMPULSORY

Paper I —(i) *Theory of Aggregates*—Cantor's and Dedekind's theory of irrational numbers, arithmetical theory of limits, linear sets, limiting points and derivatives of point sets, descriptive terminology of point

enumerable aggregates, power and content of an aggregate, definition of measure

(ii) *Theory of Functions of a real Variable* — Continuity and discontinuity of functions of a single variable, properties of continuous functions, maxima and minima of a continuous function, derivatives of functions, Mean Value theorem, Riemann's integration, Fundamental theorem of the integral calculus. Mean value theorems in integral calculus, the continuity of the sum function of an uniformly convergent series, differentiation and integration of series

(iii) *Theory of Functions of a Complex Variable* — Conformal representation of one plane on another, integration of a regular function. Cauchy's theorem, residues, development in power series; Taylor's and Maclaurin's series and Laurant's series

(iv) Uniform convergence of series, products and integrals, including the continuity of some function and term by term differentiation and integration of . . .

~~Part II~~ — (i) *Statics* — Attractions and potentials of rods, discs and spheres, Gauss's, Laplace's and Poisson's theorems

(ii) *Rigid Dynamics* in two and three dimensions — Moments and products of Inertia, Principal axes, Momental Ellipsoid and definition of ellipsoid of gyration. D'Alembert's principle. Motion about a fixed axis, centre of percussion. Motion in two dimensions. Principles of momentum and energy. Lagrange's equations in generalised co ordinates. Euler's Dynamical and Geometrical equations

Papers III and IV — Any two of the following —

- (i) Spherical Harmonics — Linear partial differential equations with constant coefficients, Monge's methods solution in series of Legendre's Bessel's equations and hypergeometric series, solutions of Laplace's equations in spherical, cylindrical and ellipsoidal coordinates expansion of a function to surface harmonics application to potential problems

Books recommended —

MACROBERT Spherical Harmonics

GANESH PRASAD Spherical Harmonics Part I

(ii) — Hydromechanics

Hydrostatics — Laws of fluid pressure general conditions of equilibrium in a fluid, uniformly rotating liquid, equilibrium of floating bodies including metacentric formulae equilibrium of gaseous liquids (excluding capillarity and oscillation of floating bodies)

Hydrodynamics — Lagrangian and Eulerian methods continuity, bounding surface condition velocity, potential and current function sources and sinks, motion of circular and elliptic cylinders in two dimensions, motion of a sphere in a liquid, simple waves vibrations of a string and of air in tubes

Book recommended —

BESANT and RAUSAN Hydro-mechanics, Parts I and II

(iii) — Elliptic Functions and Vector Analysis

Elliptic Functions — General properties of elliptic functions, Weierstrassian and Jacobian elliptic functions, including the Sigma and Zeta functions, elliptic integrals, simple geometric and mechanical applications

Books recommended —

GOURSAT Mathematical Analysis

HANCOCK Elliptic Functions

Vector Analysis—The Scalar and Vector product, Vectors, gradient of a scalar function and the divergence of Vector functions. The line, surface and volume integrals of Vector functions with the Stokes transformation formulae. The linear Vector function. Simple applications to differential geometry, attraction and potential.

Book recommended—

WEATHERBURN *Advanced Vector Analysis*

(iv) *Spherical Trigonometry and Spherical Astronomy*

Spherical Trigonometry, including the general properties of Spherical triangles

Spherical Astronomy—Fundamental Instruments, Celestial sphere, Atmospheric refraction, Precession, Nutation, Time, The Ecliptic, The Equator, Time, Aberration, Parallax, Eclipses, Rising and setting of the Sun and the Moon, Twilight, Determination of position on earth, Planetary Phenomena

Books recommended—

SMART *Astronomy*

BALL *Spherical Astronomy*

TODHUNTER AND LEATHES *Spherical Trigonometry*

(v)—*Solid and Differential Geometry*

Systems of quadrics, surfaces and curves including the associated developables and Frenet's formulae for fundamental forms, Gauss's characteristic equation, the Mainardi-Codazzi relations, lines of curvature, conjugate lines, asymptotic lines, geodesics and geodesic curvature

Books recommended—

BELL *Solid Geometry*

FORSYTH *Differential Geometry* (First chapters)

FRISWORTH *Differential Geometry*

(vi) — Complex Variable

1 Meromorphic functions Rouché's Hurwitz's, Jensen's Carleman's and Littlewood's Theorems Poisson Jensen Formula

2 Analytic continuation simple properties of Gamma and Zeta functions Hadamard's multiplication Theorem

3 The maximum modulus Theorem Vitalis and Montel's Theorems Hadamard's Three circles Theorem Caratheodory's inequality the theorems of Phragmen and Lindelof

4 Conformal representation and simple functions

5 Power series with a finite radius of convergence Riesz Fatou Theorem Over convergence Hadamard's gap Theorem Hardy Littlewood's Theorem Abel's Theorem and its converse Partial Sums of Power series

6 Integral functions Weierstrass's and Hadamard's Theorems Sterling's Theorem Theorems of Laguerre, Borel's Schottky's Landau's and Picard's Theorems

7 Dirichlet's Series Simple properties of ordinary Dirichlet's Series

Book recommended—

E C TITCHMARSH The Theory of Functions (Oxford University Press 1932 — Chapters III IX)

PHYSICS

(For the Previous and Final Examinations of 1941)

The following is the detailed syllabus (in addition to what is included in the B Sc course) —

Paper I *Heat* Measurement of high and low temperatures Absolute Temperature and correction of gas thermometers Kinetic Theory of Matter Molecular dimensions Andrew's Experiments Equation of state Change of state and liquefaction of gases Conductivity and its absolute determination

Thermodynamics and heat-engines Radiation Application of Thermodynamics to Radiation Quantum Theory of Radiation Debye's Theory of specific heats Nernst's Heat Theorem

Paper II, *General Properties of Matter* Theory of compound Pendulums Determination of Gravitation constant Simple Theory of Elasticity Theory of surface tension Elementary Theory of waves and ripples Viscosity of liquids and gases Compression and dilatation of liquids Diffusion Modern Air-Pumps

Sound Vibrations and waves. Plane and spherical waves of sound Elementary theory of vibration of strings, bars, plates, membranes and pipes Fourier's Theorem and its applications to vibrations of strings Forced vibrations and resonance Simple theory of resonators Combinational Tones Maintenance of vibrations Theory of singing flames Concord and discord, Musical Scales Theory of Vowel sounds

Paper III — *Electricity and Magnetism* General Theory of Magnetic Electric and Electro magnetic fields currents Elec
C and A C
measuring instruments, Dynamos, Alternators, Motors Transformers and Accumulators, Electrolysis Thermo electricity Electric Oscillations, Maxwell's Equations and Electro magnetic waves Wireless Telegraphy and Telephony

Paper IV — *Electron Theory* Conduction of electricity through gases Ionisation currents Mobility and diffusion of ions Ionisation Potentials Cathode rays Determination of e/m and of the electronic charge Photoelectricity Thermionics The nuclear theory of the atom Determination of the nuclear charge and the number of electrons in the atom Positive ray analysis and mass spectrograph Production, reflection, refraction, and diffraction of X-rays Measurement of wave-lengths of X-ray and X-ray spectrographs X-ray spectra Radioactivity and Radio active Transformations Dynamics of the Electron

Variation of the mass of the electron with velocity
Radiation from accelerated Electrons Electrical Theory
of Matter, Magnetons

Paper V — *Light, including elements of Spectroscopy*
Theory of image formation Cardinal points Spherical
and chromatic aberrations Aplanatic points Theory of
Diffraction Concave and Echelon gratings Interfero-
meters Lummer plates Theory of double refraction
Interference of Polarised light Spectroscopy of infra red
and ultra violet Elements of the electro magnetic theory
of light and its application to reflection, refraction, disper-
sion and absorption Magneto and Electro optics Series
spectra Elementary knowledge of Bohr's Theory of
atomic spectra Propagation of light in moving media
and special theory of Relativity

Paper VI — *One of the following subjects —*

(a) *Meteorology*

Theoretical — Thermodynamical properties of gases,
determination of heights from pressures and temperatures
at different levels

Isothermal, convective, and radiative equilibrium of
the atmosphere Comparison with actual conditions exist-
ing in different parts of the world

Buys Ballot's Law, cyclonic and anti cyclonic
motions, influence of change of temperature gradient with
height on change of wind with height

Turbulence—Taylor's eddy conductivity and eddy vis-
cosity Wind in the lower layers of the atmosphere

Thermodynamics of moist air, Neuhoff's diagram and
T fi diagram Radiation—solar and terrestrial

General ideas about waves and disturbances in super-
posed layers of air with horizontal and inclined surfaces of
separation

Meteorological Optics, Blue of the sky Twilight
colours Halos Coronas Rainbows

General circulation of the atmosphere, trades and
antitrades, monsoons, cyclones of the subtropical
tropical seas

(b) *Spectroscopy*

Various methods of producing spectra ; prism spectroscopes of various types , concave grating , echelon grating ; Lummer plates Littrow spectrographs, vacuum grating spectrographs Infra-red spectrometer Photography of infra-red and ultra-violet spectra Determination of wave-lengths by interference methods Band spectra , series spectra, series formula and notations Relation of atomic constants and series spectra , general principles of quantum theory of line spectra , Bohr's theory , Resonance and ionisation potentials Energy diagrams Correspondence principle Kossell and Sommerfeld's Displacement Law Emission and absorption spectra of elements , Stark effect, Zeeman effect Fine structure of lines, thermal excitation, *Rais ultimes* Laws of emission and absorption , Continuous spectra from black bodies and other substances Application of spectroscopy to astrophysics Theories of dispersion and absorption

(c) *X-rays*

Phenomena in vacuum tubes , generation of X-rays, high voltage generators , X-ray bulbs , different methods of setting up an X-ray establishment.

Study of properties of X rays, secondary X-rays, characteristic X-rays, absorption coefficient of characteristic X-rays, ionisation by X-rays, scattering of X-rays

Laue's discovery of the diffraction of X-rays by crystals, Bragg's method of reflection , crystal analysis by Bragg's method of reflection ; crystal analysis by the Debye-Scherrer method and the Laue method, X-ray spectrometers, Moselev's work on the measurement of wave-lengths of characteristic X-rays Siegbahn's work ; X-ray absorption spectra

(d) *Wireless Telegraphy and Telephony*

Historical introduction

Generation, reflection, refraction, polarisation and propagation of Hertzian waves, oscillatory discharge, generation of short waves, and their identity with dark heat rays Early methods of wireless telegraphy Radiation to long distances, reception

Radio frequency measurements of capacity, resistance, self and mutual inductance and current Coupling Measurement of wave length wave meters

Various types of antennæ theory of radiation from antennæ

Thermionic valves, theory and uses

Theory of thermionic currents characteristic curves of valves, the triode valve as detector, amplifier, and generator of waves Principles of regeneration Multi stage amplification for high and low frequency

Telephony —

Different kinds of microphones, modulation, loud-speakers

Transmitting circuits, receiving circuits, heterodyne reception

Propagation, atmospherics and day light effect

Uses—broadcasting, meteorological

Practical

The scope of work is approximately indicated by the following —

I Heat

- 1 Steam Calorimeter
- 2 Conductivity
3. Platinum Thermometer
- 4 Thermo couple
- 5 Determination of J
- 6 Determination of Stefan's Constant

II General Properties of Matter and Sound

- 1 Kater's Pendulum
- 2 Viscosity of Liquids and Gases
- 3 Variation of Surface Tension with Temperature
- 4 Stroboscopic Determination of frequency.
- 5 Kundt's Tube

III Electricity and Magnetism

- 1 Standardisation of Ballistic Galvanometer
- 2 Self and Mutual Induction
- 3 Capacity of condensers
- 4 Hysteresis
- 5 Potentiometer
- 6 Carey Foster's Bridge
- 7 Kelvin Bridge
- 8 A C Measurements
- 9 Wireless receiving sets

IV Electron Theory

- 1 Quadrant Electrometer
- 2 Cathode ray Oscillograph
- 3 Measurement of e/m
- 4 Measurement of charge of an electron
- 5 Measurement of Photo electric currents and h
- 6 Ionisation by Alpha rays and Alpha ray tracks
- 7 Diffraction of X rays

V Light

- 1 Adjustment and Calibration of Spectrometer
- 2 Constant Deviation Spectrometer
- 3 Biprism
- 4 Michelson Interferometer
- 5 Fabry and Perot Interferometer
- 6 Elliptically and Circularly polarised light
- 7 Verification of Fresnel's formulae of reflection and refraction of light

VI (a) Meteorology

- 1 Different types of clouds General physical processes involved in their formation
Nephoscopes and their use for measuring wind direction and velocity

- 2 Practical knowledge of self recording instruments of a first class meteorological observatory
- 3 Pilot balloons following and working out single theodolite double theodolite and flag methods
- 4 Sounding balloons, meteorographs Calibration, working out of records and interpretation

(b) *Spectroscopy*

- 1 Arc and Spark spectra
- 2 Quartz spectrograph
- 3 Concave Grating
- 4 Determination of Wave lengths—Hartmann Formula
- 5 Lummer Gehrcke Plate
- 6 Zeeman effect
- 7 Spectrophotometer
- 8 X-ray Spectrograph

(c) *X rays*

- 1 Practice with X ray tubes
- 2 Bragg's reflection method of X ray analysis—
(The wave length crystal constants and determining the structure of crystals)
- 3 Practice with the X ray Spectrometer wave length of characteristic lines
- 4 Absorption and scattering of X-rays
- 5 Ionisation by X rays

(d) *Wireless Telegraphy and Telephony*

- 1 High frequency measurement of capacity, self and mutual inductance, resistance
- 2 Measurement of wave length
- 3 Characteristic curves of triode valves
- 4 Practice with different detectors
- 5 Crystal detectors and valve detectors
- 6 Practice with transmitting sets
- 7 Practice with amplifying sets

CHEMISTRY.

PREVIOUS

(For the Examination of 1940)

NOTE—Candidates will be required to pass in the written as well as in the practical examination separately

There will be *three* papers as follows —

Paper I —Inorganic

Paper II —Organic

3 Paper III —Physical

In each paper questions will be set on History

Inorganic —The elements specified for the B Sc course in more detail, including their modes of occurrence and chief metallurgical processes. A general knowledge of the less common inorganic compounds and of important rare elements

Standard analytical methods outside the B Sc course
Gas analysis The use of Lunge's Nitrometer

Organic —The B Sc course extended so as to include the simpler synthetic dyes, non-benzenoid rings, natural products, other samples of assimilation (the whole treated in an elementary and representative manner) The theories of geometrical isomerism, optical activity, steric hindrance

Preparation and systematic detection of organic compounds Ultimate (or "elementary") analysis

Physical —The B Sc course extended so as to include the theory and calculation of vapour density, equilibrium, reaction, velocity, analysis, spectroscopy, and photo chemistry The phase rule, equilibrium, the periodic law, surface phenomena

Historical —Outlines of chemical history from the time of Boyle

FINAL

(For the Examination of 1941)

NOTE Candidates will be required to pass the written as well as in the practical examination separately.

Students who have passed the Previous may present any one of the following branches of Chemistry —

(1) Inorganic (2) Organic (3) Physical or (4) Applied

Notice must be sent to the Registrar by the 15th August, of the branch which the student intends to present at the ensuing examination and in the case of (4), the industry or manufacture to which he is attached.

A student, offering Inorganic, Organic or Physical shall present a thesis dealing with original work done by him in his selected branch. The Thesis type written and in duplicate must reach the Registrar not later than one week before the date fixed for the written examination.

In each of these three branches there will be two papers in addition to the thesis.

In branch (4) Applied Chemistry the procedure for testing the fitness of a candidate will be decided as occasion arises.

Inorganic — More recent discoveries, methods and theories including acquaintance with original papers. Reaction at high and low temperatures examination of alloys and minerals and the practical use of the spectroscope. History of Inorganic Chemistry.

Organic — More recent discoveries, methods and theories, including acquaintance with original papers. History of Organic Chemistry.

Physical — More recent discoveries, methods and theories including acquaintance with original papers. History of Physical Chemistry.

Applied — The principle has been laid down that a candidate will be expected to show that he has bona fide devoted himself to some important industry or manufac-

ture and has acquired a reasonable degree of efficiency under all three of the following heads —

- (i) *Technical* —He should have either (a) performed systematic analytical control, or (b) engaged in systematic research or (c) introduced improved methods of mechanical handling application or distribution of power, etc
- (ii) *Economic* —He should have acquired some knowledge of sources and markets of costing (including plant, power, labour control distribution depreciation etc) and of disposal or utilization of by products and waste
- (iii) *Foreign* —He should have studied the methods in use in other countries as far as ascertainable by him

ZOOLOGY

PREVIOUS

(For the Examination of 1940)

A —The structure, development Bionomics and Distribution in space and time of typical representatives and of other examples illustrative of general characters of the principal subdivisions of each phylum of the Non Chordata

B —The general principles of the various subjects of zoology etc

The standard of examination is approximately indicated by the following text books —

PARKER AND HASWELL Text book of Zoology, latest edition, two volumes

SEDGWICK Text book of Zoology

The student is expected to consult other books of reference as well

There will be *three* papers —

Paper I will deal with the Comparative Anatomy and Embryology of Protozoa, Porifera, Coelenterata, Platyhelminthes, Nemathelminthes, Trochelminthes, Molluscoida and Echinodermata

Paper II will deal with the Comparative Anatomy and Embryology of Annulata, Arthropoda and Mollusca

Paper III will deal with the general principles of Biology, including the facts and theories of Evolution, and the subjects of Variation, Heredity, Adaptation, Selection, Isolation, Sex and Biometrics

Candidates must produce at the practical examination their preparations and note books containing a complete record of laboratory work

FINAL

(For the Examination of 1911)

The subjects for examination shall be—

A —The structure, Development, Bionomics and Distribution in space and time of typical representatives and of other examples, illustrative of general characters of the principal subdivisions of the Chordata

B —A detailed knowledge of one of the two groups to be announced at least one year previous to

the date of the examination The groups selected until further notice are—

(a) *Fishes, and

(b) Reptiles

C—A thesis recording original work done by the candidate together with a view of recent literature on the problem investigated by him

A candidate will be required to offer Papers I and II and either (a) or (b) or (c) of Paper III

* SPECIAL GROUP—FISHES

1 Structure and development

2 Biology of Fishes

3 Classification and Systematic Survey with special reference to Indian Fishes including Marine, Brackish water, Fresh water and Hill stream Fishes

4. Origin and evolution of Fishes

5 Applied Ichthyology

Methods of Fishing and Fisheries including Fresh water and estuarine fisheries In shore or coastal Fisheries

Problem of Fishing Industries Fluctuations cyclic intensities. Migrations Influence of Plankton

Tinning and canning Rail road transport and marketing. Economic survey of Fisheries

By products of Fishing Industry, Fish oil Fish manure, Isinglass etc

6 Maintenance and working of Aquariums Hatcheries, Rearing and stocking ponds

Larvivorous Fishes and their utility

In addition to books already suggested for the M Sc Examination the following may be consulted —

(1) Norman History of Fishes

(2) Roule Journeys and Migrations of Fishes

(3) California Fisheries Bulletin

(4) Administration Reports of the Madras Fisheries Department

(5) Administration Report of the Punjab Fisheries Department.

(6) Empire marketing Publications on Fisheries of the British Empire

Paper I will deal with the Comparative Anatomy and Embryology of the Chordata

Paper II will deal with the History of Biology, Zoogeography, Palaeontology and Economic Zoology

Paper III (a) will deal with Fishes with special reference to the fresh water fishes of the U P

Paper III (b) will deal with Reptiles

Paper III (c) Thesis

PRACTICAL EXAMINATION

A selected subject shall be studied as much as possible from the practical standpoint. A selected group shall be studied primarily from the local fauna available in the United Provinces and also from other examples of important types

Candidates must produce at the practical examination their preparations and note books containing a complete record of laboratory work which will be taken into consideration in determining the results of the examination

BOTANY

(For the Previous and Final Examinations of 1941)

NOTE.—Candidates will be required to pass the written as well as the practical examination separately

For the M Sc Examination in Botany Previous and Final there shall be the following five papers and thesis or Special paper as indicated below —

Paper I Thallophytes

Paper II Bryophytes and Pteridophytes

Paper III Gymnosperms Cytology and General Biology

Paper IV Angiosperms

Paper V Physiology and Ecology

Thesis, or Special paper on "Study of Fungus Pests of Crops in the United Provinces"

Out of the five papers, candidates may take any three for the Previous examination, and the remaining two papers and the thesis or Special paper for the Final examination

Two of the three papers set for the M Sc Examination shall be common for Previous and Final examinations every year

- 1 The systematic morphology, physiology, and life-histories of the typical representative of the principal groups of Thallophyta, Bryophyta, Pteridophyta, Gymnosperms, and the Angiosperms
- 2 A knowledge of the more important fossil types
- 3 Physiological plant Anatomy and Ecology
- 4 A knowledge of "Soil Bacteria" and "Soil Fungi"

Candidates will also be expected to study the phenomena of Nutrition of Lichen Algae, Lichen Fungi, and reproduction of Lichens

- 5 Plant Physiology
- 6 Study of Cytology including the following —
Protoplasm, Plastids, Somatic Mitosis, Meiosis, Fertilisation, Determination of Sex, Linkage, Cytological basis of Mendelism
- 7 Fundamental facts of variation and heredity and the theories of evolution
- 8 Principles of plant breeding
- 9 Special paper on "Study of Fungus Pests of Crops in the United Provinces"

Or

Thesis recording original work done by the candidate and a brief review of recent literature on the problem investigated by him. Two typed copies of the thesis should be submitted a week before the examination

Practical Examination

The examination shall comprise the following —

- 1 Detailed study of representative types of different groups prescribed in the syllabus
- 2 Study of physiological plant anatomy
- 3 Cytological study of suitable specimens
- 4 Demonstration of important phenomena of plant life
- 5 Referring of plants to their families or sub-families

Paper I—*Crops and Cropping Schemes, Soil Development*

(1) CROPS AND CROPPING SCHEMES

Arrangement of cropping schemes, the following classes of crops to be dealt with —

Cereals, fibres, oil seeds, roots, legumes, fodders and miscellaneous

Principles underlying rotation of crops, Distribution of cropping schemes according to soils and climate with special reference to the United Provinces; Cropping schemes for the following classes of farming —

- (i) Mixed arable
- (ii) Intensive
- (iii) Extensive
- (iv) Dairy.
- (v) Stock, including pasture

Factors affecting cropping schemes, improvements in grades of soil by judicious cropping, Acid and the alkali soils and their improvements by suitable cropping

(2) IRRIGATION AND DRAINAGE

Irrigation —Hydraulics, purpose and practice of irrigation, drainage

Hydraulic terminology including cusec, duty of water, head of water, wastage, osra bundi, depression or infiltration head, losses by evaporation and seepage, water requirements of different crops; measurement of water and hydraulic formulae

Necessity for irrigation by artificial means, sources of water for irrigation and their scope; wells, reservoirs and canals; irrigation practice and drainage in the United Provinces.

Canals—Canal systems in India and the United Provinces, productive and protective canals; working of canals;

types of outlets, canal rates, etc. utility of charging by actual volume, meters, modules and modules. Reservoirs and embankments—Brief explanation of the principles governing their construction

Wells—Percolation wells, lined and unlined, their relative merits, principles of construction of masonry wells, cost. Improvement of well supplies by boring, mota or cavity wells and small strainer wells

Tube wells—Comparison with masonry wells their design, construction and yield, their special utility in intensive farming, their possibilities in the different districts of the United Provinces, cost, and their adaptation in western districts for extensive farming through cheap electric power

Irrigation practice and Drainage—Distribution and economy of water, different systems of irrigation and their relative advantages, over irrigation and the attendant evils; objects of drainage, conditions requiring drainage, types of drains and relative costs, cost of drainage in relation to crop production, alignment and design of drainage channels, types of outlets

(3) SOIL DEVELOPMENT

General Soil Management—Practices of cultivation as regards time of cultivation and the implements used. Levelling precaution to be taken; prevention of scouring; subsoiling costs; Machinery used in sub soiling and levelling, soil sickness, including toxicity, acidity and alkalinity; Soil micro-organisms

Manures—Necessity of manures. Time of manuring and method of application. Conservation of manures; Effect and valuation, Units

Land Development—Improvements by scientific treatment of land otherwise unproductive; Capital outlay: Probable profits and Reclamation of acid waste lands unsuitable investment, development, eradication of pernicious weeds, improvement of pasture land, cost of such improvement, well-boring, capital outlay and probable

SOIL DEVELOPMENT

General Soil Management — Principles of cultivation
as regards time of cultivation and the implements used.
Levelling precaution of water prevention of scouring.
subsoiling costs Machinery used in subsoiling and levelling.
Soil sickness including toxicity acidity and alkalinity.
Soil micro-organisms.

Fertilizers — Necessity of manures Time of manuring
and method of application Conservation of manures
Effect and valuation, Liming.

Land Development — Improvements in soil and
management of land otherwise unproductive. Cost of
Probable profits and time taken for return on investment.
Reclamation of acid and alkaline lands and restoration of
waste lands unsuitable for cultivation, for agricultural
investment, development of shallow soils, eradication of
parasitic weeds, improvement of pasture lands, cost of
such improvement, well-boring, rental outlay.

returns on idle lands, investment—agricultural, in machinery, for land development, precautions to be taken probable return on such investment, poultry goat and sheep farming outlines of improved practices of suitable breeds their care and management, probable outlay and returns

Practical I —Crop Culture

- (a) Practical study of the field and garden crops, their methods of cultivation improved and indigenous, yield and cost per acre, Storage and disposal of produce
- (b) Special attention will be devoted to the following crops representing their classes —
 - Field Crops* —Sugarcane, Wheat, Rice, Oats, Millets, one fodder grass, Lucerne
 - Cotton, Sunnhemp, Arhar, Potato, Mustard, Linseed, Tobacco
 - Vegetable Crops* —Cauliflower, Carrot, Onion, Tomato, Brinjal, Chillies
 - Garden Crops* —Mango, Lime, Guava, Banana, Papaya, Ber
- (c) Students are expected to be familiar with methods of cultivation elsewhere and other matters of general interest connected with the special crops
- (d) The students will visit—
 - (i) Holdings of the cultivators, and
 - (ii) Government and private farms and gardens
- (e) The records of the field operations and reports on the places visited will be produced at the final examination

Paper II —Farm and Estate Management, Engineering

(1) FARM AND ESTATE MANAGEMENT

Principles underlying successful management of farm maintained for—

- (a) Experiments
- (b) Demonstrations,
- (c) Profits

Layout of Farms —General survey of land, layout of fields, roads buildings irrigation and drainage channel, fencing

Farm Labour —Its organisation allotment of duties, training of unskilled labour methods of increasing efficiency

Farm Live stock and machinery Care upkeep and efficiency distribution according to purposes

Farm buildings —General principles of layout and construction

Farm records Their maintenance working out of cost

Farm Book keeping—

Necessity of a system of accounts, classification of accounts, single entry—its shortcomings and conversion into double entry, principles of the double entry system and their application

Forms and uses of cash books Purchases and sales books (including columnar books) Journal and Ledger, Opening costing and closing ledger accounts drawing up a trial balance Profit and loss account and balance sheet.

Banks, bank accounts bank cheques, bank reconciliation statements, discount interest bad debts, depreciation and good will, bills of exchange and promissory notes, consignment and joint venture reserve and sinking funds

Preparation of trading profit and loss accounts and balance sheet, provision for discounts and doubtful debts, suspense accounts, crop accounts, labour accounts, and analysis of wages, closing up farm and dairy accounts

Estate Management —Laws regulating the relations of Government landlords and tenants, general description of the estates in the United Provinces, organisation of staff and their duties

(3) AGRICULTURAL ENGINEERING

Farm machinery —Machines used in cultivation and other operations on the farm, Comparison of indigenous and imported implements of tillage, Reasons for variation in nature and strength of material in different parts of the machine, Wear and tear and how to avoid it, Mal adjustments and their correction, Replacement of parts, Depreciation and costs

Irrigation appliances and machinery —Hand and power lifts, Calculation of efficiency, Losses by friction, well boring, costs, Discharge of water from irrigation appliances

Sources of power on the farm Comparison of the relative merits of the following —

Electricity steam internal combustion water
power cost of working and comparison
with bullock and hand power

Application of the above forms of power to the following —

Traction, cane crushing sugar plant, threshing,
chaff cutting, flour-milling, water lifting

Buildings —Materials used Strength and properties of materials, Stresses and strains, Tension, Compression shearing torsion, Factors of safety, Retaining walls and arches, Plans, elevations and sections

Depreciation on all forms of farm machinery and buildings, Cost of maintenance, both when idle and at work

Surveying —Instruments used in surveying Surveyor's field book

Paper III —*Agricultural Economics and Statistics, Commercial Farming*

1 AGRICULTURAL ECONOMICS

Introduction and scope of the subject

Land —Choice, location and valuation, large and small farms, marginal land

Labour — Factors affecting supply and demand or organisation of labour classification of labour efficiency how increased or decreased Wages factors affecting economic cost of labour Indian rural labour periods of idleness and how best utilised General agricultural labour problems

Capital — Sources of capital interest and depreciation the present day trend of application of capital to agriculture methods of increasing productiveness of capital to agriculture rural indebtedness The Tagore system — Government loans and grants

Proportions of the factors of production and laws of return

Distribution of wealth — Rent wages profits and interest their relation to each other

Exchange — Markets and marketing methods of exchange in local provincial and international markets

Co operation in Agriculture — Forms of co operation credit and non credit co operative purchase and sale co operative production Application of the principles of co operation to estates Land banks and the application of western co operative methods to Indian conditions

2 AGRICULTURAL STATISTICS

Scope and utility of Statistics — Compilation and tabulation of data averages dispersion Graphic method, Diagrams Accuracy, Index numbers Co relations

The study of the above to be based on the following data from the United Provinces and India —

Acreage under crops Average yield of crops Irrigated area Area under improved varieties Spread of improved seed Cattle meteorological conditions Exports and imports

3 COMMERCIAL FARMING

Principles underlying commercial farming with major occupation of—

- (a) Crop Production,
- (b) Cattle Breeding, and
- (c) Dairy Farming,

capital outlay requirements of capital for recurring expenses effects of distance from market transport arrangements disposal of produce practice in working out capital requirements for commercial farms under various conditions in the province methods of economizing expenditure simple systems of accounts for untrained managers

Practical II —Farm management

- (a) Working of improved implements and machinery, their cost and working expenditure
- (b) Survey and layout of farms for—
 - (1) Experiments
 - (2) Demonstration
 - (3) Profit
- (c) Layout of—
 - (1) Orchards
 - (2) Public gardens
- (d) Methods of marketing
- (e) The students will visit the following —
 - (1) Holdings of the cultivators
 - (2) Government and private farm and gardens
 - (3) Factories utilising agricultural products
 - (4) Centres of allied industries
 - (5) Markets for agricultural products and requirements
- (f) The following record will be maintained by the students to be produced at the final examination —
 - (1) The record of the implements and machinery used
 - (2) Reports on the places visited

Paper IV —Dairying and Animal Husbandry Veterinary Science

(1) DAIRYING AND ANIMAL HUSBANDRY

The object of this course is to deal with the dairyman's aspect of the course rather than the chemist's

(1) Milk and its products —

Milk its constituents food value of milk Secretion of milk in the udder Factors influencing the quality and quantity of milk produced Adulteration of milk and how to detect it

Production of clean milk including cost per unit Grading of milk Treatment of milk for marketing such as standardizing pasteurising homogenising sterilizing and bottling Humanizing of milk Conveyance of milk and distribution Bacterial and legal standards of milk Milk contracts Problems of milk supply in our cities

Vitamins in milk Milk enzymes contamination of milk and cream Milk fermentations growth of micro organisms in milk

Cream its composition Different methods of obtaining cream such as shallow and deep pan system water dilution system and centrifugal system Efficiency of cream separators Varieties of separators The separator bowl speed of the bowl separating temperature Factors affecting the percentage of fat in cream The causes of vibration of the separator The essentials for successful separation Advantages of creaming by a separator over the gravity system

Ripening of cream Object of ripening Ripening temperatures natural cream ripening Starters natural starters pure culture starters ripening cream with starters.

Neutralization of cream for butter making importance of neutralization of cream for butter making The preparation and use of lime as a neutralizer

Butter its composition making of butter from ripened cream sweet cream and whole milk Points of good butter Judging of butter Estimation of water in butter

Ghee manufacturing ghee from (a) cream and (b) butter comparison with the indigenous method

Cheese Quality of milk for cheese, Varieties of Indian cheese such as—

(a) Milk cheese and ,

(1) Cream cheese

Manufacture and uses of milk sugar milk, powder and condensed milk, and casein composition and uses of separated milk butter milk and whey Comparison of profits by sale of dairy produce such as whole milk, cream butter ghee and cheese

(2) Refrigeration of dairy products and construction of cold store

(a) Refrigeration of dairy products Importance of refrigeration The two systems of refrigeration : (i) Natural and Mechanical Natural system including ice bunker method insulated ice house method and gravity brine method Mechanical system Its history Principle involved different ways of effecting refrigeration by the comparison system such as the brine circulation system the direct expansion system and the cold air blast system

(b) Construction of cold store —Location of cold store in the dairy material required size, construction of floor walls roof, door and windows Ventilation and painting

(3) Dairy utensils and Machinery —

Utensils and machinery of the cow shed the yard and the butter house Minimum requirements of a dairy in utensils and machinery Cost and upkeep Power requirements Steam and electricity for dairy purpose

(4) Live Stock —

(a) Judging of cows bulls bullocks and young stock Systems of establishing and maintaining the herd Study of important breeds of cattle of the whole of India The cattle-breeding problem and how to improve it Comparison of important breeds of exotic and indigenous cattle results achieved with important breeds of improved stock Improvement of sheep in India

(b) Animal Breeding —Aims of the breeder selection, systems of breeding such as grading, crossing, line breeding and in breeding,

Variation kind of variation such as morphological functional and mutational The Mendelian rule as applied to cattle improvement Pedigree heredity and prepotency of farm animals

- (c) General management Selection care and management of the sire Raising of dairy calves marking of calves for identification Dehorning Raising of the dairy heifer, care and management of milch stock such as housing regularity and gentleness in handling exercise and grooming watering, milking supplying mineral matter giving the cow a rest driving off the cow mating, breeding or condemnation Introduction of new animals into the herd

(5) Feeds and Feeding —

The digestion of feeds The determination of digestibility of food stuffs Relative values of feeding stuffs The production values of feeding stuff Kellner's starch values Computation of rations for maintenance, growth and production of milk and other utilities by well known feeding standards including Armsby Kellner, Wolf Lehman and Haecker Recent work on feeding standards in India Feeding of weaned calves Pregnant cows and cows just calved

Feeding stuffs and their classification mixing of rations care in handling and preparation of rations Hay making silage making and the soiling system

(6) Farm Buildings —

Location of farm buildings Grouping of the different farm buildings such as dairy milking sheds milk recording room shed for calves dry and young stock sheds calving shed bull sheds godown silo-tower implement shed chaffing shed water trough isolation yard and menials' quarters

- (a) Dairy building—amount of floor space Arrangement of floor space Construction of foundation walls and roofs Ventilation, cost per sq ft

(b) Milking shed—importance of good milking-shed, different types of sheds, space required per head of cattle; construction of floor, feeding troughs, gutters, walls and roof; Ventilation and requirements, in air and light; Ties, stanchions and partitions.

(c) Construction of other buildings, such as milk recording room; Shed for calves; Dry and young stock sheds; Calving boxes; Bull sheds; Godown, Silo tower; Implement shed; Chaffing shed; water trough; Isolation yard and menials' quarters, cost per sq ft.

(7) Dairy Farm Management:—

Labour requirements in the care of cattle; Causes of loss of time in dairy routine work and their effect on production, Efficiency of labour in the dairy; Cropping scheme for the supply of green fodder to the dairy cattle all the year round, Study of cattle and dairy registers.

(8) General:—

Capital and recurring cost of cattle-breeding scheme. Schemes for starting dairy farms with main purposes of—

- (a) Milk Production.
- (b) Butter Production
- (c) Cheese Production.

(2) VETERINARY SCIENCE.

(1) (a) Elementary physiology of cow, ox, and horse, their requirements, in food and water.

(b) Stables—Their construction and hygiene for sick and pregnant animals: Ventilation; Drainage.

(c) Infectious and contagious diseases—Their cause and mode of dissemination; General measures for prevention, Immunity and Idiosyncrasy.

(d) Description, Symptoms, Diagnosis and Treatment of the following diseases of cattle;—

- (1) Anthrax, (2) Foot and mouth diseases, (3) Haemorrhagic septicaemia, (4) Rinderpest, (5) Black quarter, (6) Cow Pox, (7) Tick

fever, (8) Rheumatism (9) Lymphangitis, (10) Impaction of rumen (11) Indigestion, (12) Gastritis (13) Diarrhoea (14) Pneumonia (15) Tuberculosis, (16) Simple ulcers, (17) Pleuro pneumonia contagiosa, (18) John's disease, (19) Coarctation, (20) White scour (21) Glanders (22) Epizootic fever, (23) Diseases of udder and teats, sterility

(c) Simple obstetrics Common forms of abnormal parturition, Treatment of diseases accompanying parturition, e.g. retention of placenta, milk fever, parturient paralysis, metritis and prolapse uteri etc. Treatment of diseases of new born calf

(f) Poisons commonly used to destroy cattle, Their symptoms and treatment

(g) First aid in cases of injury Treatment of simple wounds, sores and tumours

(h) Biological products and their uses

(i) Causes symptoms and treatment of skin diseases and internal and external parasites

2 ANIMAL BREEDING

Aims of the breeder, selection, system of breeding, such as grading, crossing, live breeding and in breeding, variation, kind of variation such as morphological, functional and mutational The Mendelian rule as applied to cattle improvement, pedigree, heredity prepotency of farm animals

Practical III

(1) DAIRYING AND ANIMAL HUSBANDRY

- 1 Grooming of calves milch cows and other dairy cattle
- 2 Artificial feeding of young calves which have been weaned
- 3 Mixing of feeds and preparing balanced rations for dairy cows and other cattle
- 4 Approaching and handling of the different dairy cattle

- 5 Judging of dairy cows heifers bulls and bullocks by means of the score card system
- 6 Purchasing of dairy cattle in the market
- 7 Branding of young stock and adults
- 8 Dehorning of young calves
- 9 Handling and care of the bull
- 10 Hygienic milking of cows and buffaloes
- 11 Recording of milk
- 12 Sampling of milk
- 13 Cleaning of dairy utensils
- 14 Preparation of churn butter worker and other such appliances
- 15 Tests in milk and cream —
 - (a) Fat percentage by Gerber's method
 - (b) Specific gravity by means of lactometer
 - (c) Solids not fat with the help of formula after noting the fat per cent and specific gravity
 - (d) Total solids both by evaporating the milk and with the help of Richmond's milk scale
- 16 Detection of adulteration in milk
 - (a) Extraction of fat
 - (b) Addition of water
 - (c) Addition of separated milk or a combination of any of these
- 17 The detection of stale or dirty milk
- 18 Testing acidity of milk and cream
- 19 Standardizing of milk
- 20 Humanizing of milk
- 21 Pasteurizing of milk
- 22 Bottling of milk
- 23 Scaling of milk bottles and cans
- 24 Fitting and adjusting of cream separators
- 25 Separating of milk
- 26 Preparation of mother starter

- 27 Neutralization of cream
- 28 Natural cream ripening and ripening with the help of starters
- 29 Butter making
- 30 Judging of butter
- 31 Packing of butter for the market
- 32 Estimation of water in butter
- 33 Casein making —
 - (a) Commercial casein
 - (b) Rennet casein
 - (c) Lactic casein
- 34 Ghee making from —
 - (a) Curd or Dahi as practised in villages
 - (b) Cream and
 - (c) Butter
- 35 Study of different dairy and cattle registers

(2) VETERINARY SCIENCE

- (1) Dissection and practical acquaintance with the external and internal anatomy of cattle
- (2) Common external and internal parasites of cattle and methods of their eradication disinfection of stables etc
- (3) Familiarity with common medicines their actions, dosage and handling Drenching
- (4) Simple surgery and bandaging Preparation of ointments medicated oils, liniments and dispensing of prescriptions
- (5) Care, management and clinical study of sick animals
- (6) Care of expectant mother before and after calving and handling of new born calves
- (7) Diagnosis of ordinary and common ailments and diseases and their treatment Study of sprains of muscles ligaments and tendons and their treatment
- (8) Throwing the animal, Castration, shoeing

(9) Treatment of abscesses, wounds, tumours and fractures.

Students will visit dairies and maintain record of laboratory work and out-door observations to be produced at the final examination

Paper V—*Pests, Diseases and Common Weeds*

(1) Common Insect Pests of the United Provinces and their control

(a) The life-history and development of two typical insects, namely grass-hopper and butterfly

(b) Insects and agriculture

The nature and extent of damage Leaf eaters; Stem and root borers, Root eaters, Flower and fruit eaters; Fruit borers, Sap suckers, Blood suckers; Eaters of stored grain Transmission of diseases of cultivated plants and animals

(c) Methods of control —

(i) Biological control;—Resistance and immunity need for combining host resistance factors, in plant breeding, Bacterial, Protozoan and fungoid diseases of insects and their use in pest control Insect predators and parasites and their utilisation

(ii) Cultural Control,—Value of clean cultivation, Good tilth, manuring; irrigation and draining, Rotation; Resistant varieties, Alteration of seasonal dates and use of trap crops

(iii) Mechanical and physical methods;—Collection of eggs, larvae and adults; Cutting out dead hearts; Barriers; Grease bands, Shelter traps; Cleaning of stored grain; Light traps; Scent traps; Sun or machine heating of seed; Destruction of attacked fruits.

(iv) Chemical control;—Insecticides; their preparation and employment; Contact and

stomach poisons, Apparatus for application
Fumigation, Insectifuges and
repellants

(d) The occurrence life histories, attack and methods of control of the following pests

Orthoptera —Kharriff grass hoppers (*Hieroglyphus* sp.)

Hemiptera — Mustard bug (*Brachy picta*), Rice gander (*Leptocoris varicornis*), Red cotton stainer (*Disdercus cingulatus*), Sugarcane leaf hopper (*Pyrilla* sp), Mango Leaf hopper (*Idiocerus* sp), Sugarcane white fly (*Aleurolobus barodensis*), Mustard green fly (*Aphis brassicae*), Mango white bug (*Monophlebicus* sp)

Lepidoptera — Grain caterpillar (*Chloridea obsoleta*), Cut Worm (*Agrotis ypsilon*) Cotton spotted boll worm (*Earias* sp.), Sugarcane stem borer (*Diatroea* sp.) Sugar cane root borer (*Emmilocera depressella*), Sugarcane top borer (*Scripophaga nivella*), Maize and Jaw borer (*Chilo zonellus*), Cotton leaf roller (*Sylepta derogata*), Cotton Pink boll worm (*Platyedra gossypiella*), Potato moth (*Phthorimoea operculella*), Grain and flower moth (*Sitotroga cerealella*)

- (3) Black, green and blue moulds
- (4) Powdery mildew of pers
- (5) Smut of *jo var*, *lajra*, wheat and sugarcane
- (6) Rusts of wheat and linseed
- (7) Wilt of *arhar* and cotton
- (8) Red rot of sugarcane
- (9) Canker of citrus

(b) Knowledge of control methods generally

(3) Common Weeds of the U P and their control

(a) Distribution of common weeds in the locality, their injurious effects. Habits of growth and methods of prevention and eradication

(b) Detailed study of—

- (1) *Zizyphus rotundifolia*
- (2) *Corchorus acutangulus*
- (3) *Desmodium triflorum*
- (4) *Convolvulus arvensis*
- (5) *Convolvulus microphyllus*
- (6) *Euphorbia hirta*
- (7) *Euphorbia thymifolia*
- (8) *Asphodelus tenuifolius*
- (9) *Cyperus rotundus*
- (10) *Setaria glauca*
- (11) *Saccharum spontaneum*
- (12) *Digitaria sanguinalis*
- (13) *Andropogon* sp

Practical II

(1) Acquaintance in field and laboratory with twenty-four insect pests and their life histories. Field application of control measures including preparation and application of standard insecticides

(2) General knowledge of control operation for common Fungus and Bacterial diseases

(3) Methods of prevention and eradication of Common Weeds

The course will be studied entirely from a farmer's point of view. His interest will dominate over the scientific aspect of the study

AGRICULTURAL CHEMISTRY

Paper I

Historical

History treated in a brief manner with especial reference to the development of ideas in plant nutrition and relation of plant to soil

The Soil

Elementary geology necessary for the study of soils
Formation of soil Constitution of soil Chemical and Physical properties of soil Soil reactions The Colloidal properties of soil Soil conditions affecting plant growth The Elementary principles of soil microbiology Methods of sampling soils Mechanical and chemical analysis and interpretation of results The carbon and nitrogen cycles in the soil Base exchange Causes of fertility and sterility of soils Composition of drainage and irrigation waters Climate and its influence on soils Methods of soil classification Soil types with especial reference to the soils of United Provinces

Methods of soil survey Soil erosion Reclamation and improvement of soils

Fertilisers and Manures

Classification of fertilisers and manures Sources manufacture and properties of the chief fertilisers and manures

Farm yard manure and its storage The relation of manure to crops Law of Diminishing Returns Analysis and valuation of manures

The Plant

Composition of plants and their products Assimilation of food, its products and their transformation Chemical changes during germination growth and ripening Enzymes Factors affecting the growth of plants

Paper II

Feeding stuffs

Chemistry of constituents of feeding stuffs —

Carbohydrates, including sugars starches fibres and glucosides Proteins, polypeptides and amino acids Fats

Paper II —

Plant Pathology

I Mycology

Study of the life history of the following —

Pythium *Albugo* *Peronospora* *Phytophthora*
Mucor
Saccharomyces *Peziza* *Nectria* *Claviceps*
Xylaria
Erysiphe *Phyllactinia*, *Penicillium* *Aspergillus*
Ustilago *Puccinia* *Melampsora*
Agaricus
Botrytis *Glaucosporium* *Collectotrichum* *Fusarium*
Alternaria *Helminthosporium*

II Bacteriology

Bacteria in general including role of bacteria in nature
 Morphology and classification of bacteria Physiology of
 bacteria (Elementary treatment) Asepsis and Antisepsis
 Sterilization

III Diseases of Plants

Causes of disease —

(a) Parasitic —

- (i) Mycological
- (ii) Bacterial
- (iii) Phynerogamic

(b) Virus

(c) Physiological

Saprophytism and parasitism symbiosis Specialization
 of parasitism Methods of infection

Principles of Control

IV Study of the following diseases and their control —

(a) Parasitic —

(i) Mycological—Symptomatology Identification of the causal organism

Stem rot of papaya (*Pythium*) White rust (*Cytopus*) Late Blight (*Phytophthora*) Downy mildew (*Peronospora*) Green ear disease (*Sclerospora*) Foot rot (*Claviceps*) Powdery mildew (*Erysiphe* *Phyllactinia*) Soft rot (*Penicillium*, *Aspergillus*) Sooty mould (*Meloidia*) Smuts (*Ustilago*) Rusts (*Puccinia* *Melampsora*) Early

blight of potato (*Alternaria*), Red rot of Sugarcane and Anthracnoses (*Colletotrichum*), Wilt (*Fusarium*, *Rhizoctonia*), Leaf spot (*Helminthosporium*), Lichens

(ii) Bacterial —

General character of the causal organism of —

Soft rot of vegetables Citrus canker

(iii) Phanerogamic —

Cuscuta, *Loranthus*, *Orobanche*

(b) Virus —

Leaf roll and Mosaic of potato

Mosaic of tobacco and sugarcane

(c) Physiological —

Chlorosis

Practical

The practical work will be based on and co ordinated with the theoretical course

In Bacteriology practical the students should be familiar with—

(a) The preparation of culture media, namely Bouillon, glucose, milk and potato

(b) Microscopic examination of bacteria Use of oil immersion lens, Staining of bacteria, Measuring of bacteria, Gram's method of staining, Demonstration of the spores of bacteria

(c) Methods of identification of bacteria in outline

Isolation culture and examination of *B. Subtilis*

Note-books containing a complete record of laboratory work will be required to be produced at the Practical Examination

BOTANY WITH PLANT BREEDING.

Paper I — *Botany*

(Same as under Botany with Plant Pathology)

Paper II — *Plant Breeding.*

Study of reproductive organs and modes of fertilization, artificial and natural

Historical survey of plant breeding work, Nature and scope of breeding work in the United Provinces

Variation Nature, amount, causes and kinds, Fluctuating variability and Mutation

Measurements of variations

Fertilization process hybridisation, its limits and technique The inheritance of morphological and physiological characters of plants

Theories of Evolution

Mendelism and its bearing on plant-breeding

Selection, Fixation of new forms, Mass culture and pure lines

Practical

Students will be required to be familiar with the hybridisation technique, lay out of replications, numbering, labelling and recording for breeding purposes

BOTANY WITH HORTICULTURE

Paper I — *Botany*

(Same as under Botany with Plant Pathology.)

Paper II — *Horticulture*

Introduction—Sites and laying out; Cultivation and drainage, Methods and results of digging, trenching, loughing, sub-soiling, hoeing, raking and rolling

Propagation by cuttings, layering, budding, grafting, gootee, Pruning, Raising and selection of stocks

Methods of grading, packing, marketing, storing and preservation

(1) Fruit gardening —Methods, care and precautions required in raising nurseries of fruit trees and practical acquaintance with and care of mangoes, citrus varieties, guavas, grapes, bananas, papayas, loquats, lichis and ber (Ziziphus Jujuba)

(2) Vegetable gardening —Methods, care and precautions necessary in culture and seed raising of—

Cole crops	Cabbage, knol khol, cauliflower
Root crops	.. Carrot, beetroot, turnip.
Bulb crops	... Onion, garlic
Tuber crops	. Potato
Legumes	.. Peas and beans
Cucurbitaceous crops	Cucumber, torai, melons, pumpkins and gourds
Miscellaneous crops	. Turmeric, ginger, tomato, brinjal, bhindi, chillies, sweet potato

(3) Flower gardening —methods of propagation and seed raising

Practical

A thorough knowledge of the methods of propagation of all classes of plants included in the above course will be required

Students will keep a record of the field work which shall be produced at the examination

ZOOLOGY WITH PARASITOLOGY AND ENTOMOLOGY.

Paper I.—*Zoology and Parasitology.*

(1) The general principles of Biology treated in an elementary manner, including the theory of evolution.

(2) The structure and phenomena of the animal cell. Reproduction, sexual and asexual: Parthenogenesis; Metamorphosis, Alternation of Generations.

(3) Principles of classification; Special reference to Phyla containing animals of economic importance to agriculturists.

The general features, biology and economic importance of the following phyla and examples:—

Non-Chordata

Phylum	Class.	Example.
Protozoa	... Rhizopoda	... Amœba.
	Sporozoa	... Malarial parasite.
	Infusoria	... Paramœcium.
Cœlenterata	... Hydrozoa	... Hydra.
Platyhelminthes...	Trematoda	... Fasciola hepatica
	Cestoda	... Tœnia.
Nemathelminthes..	Nematoda	... Ascaris.
Annelida	... Chætopoda	... Pheretima.
Arthropoda	... Crustacea	... Prawn (Appendages only).
	Insecta	... Grasshopper.
	Myriapoda	... Centipede, Millipede.
	Arachnida	... Scorpion, Mite, Tick.
Mollusca	... Gastropoda	... Pond Snail, Pila.
	Pelecypoda	... Fresh-water Mussel, Unio,

Chordata

Craniata	...	Pisces	..	Scoliodon	
				Labeo sp (Rohu)	(External features only)
		Amphibia	.	Frog	
		Reptilia	...	Lizard	Poisonous snakes of India (Recognition only)
		Aves	.	Pigeon (excluding skeleton)	Common f o w l (skeleton only)
Mammalia	..	Distinction between orders Ungulata, Carnivora Rodentia, Insectivora, Chiroptera, Primates, Squirrel or rat			

(4) The outlines of the development of frog, chick and rabbit Anion and Allantois, Placentation

Parasitology

The identification, biology and economic status of parasitic and pathogenic species of Protozoa, Platyhelminthes, Nematelminthes and Arachnida

Phylum		Class		Example
Protozoa	...	Rhizopoda	...	Amoebae
		Mastigophora	..	Trypanosoma
		Infusoria	...	Balantidium
		Sporozoa	..	Babesia
Platyhelminthes		Trematoda	..	Fasciola hepatica Schistogomum bovis
		Cestoda	.	Tania Saginata
			..	Magrinata
			..	Crassicolis
			..	Echinococcus
Nematelminthes		Nematoda	...	Tylenchus Heterodera Ascariis.

			Anchylostoma	
			Filaria	
			Strongylus	✓
Annelida	. Hirudinea	..	Hirudo	
Arthropoda	... Arachnid		Fowl mite, Ticks	

Practical

Identification of example Laboratory acquaintance
with their general characters Elementary laboratory
technique Examination of guts and excreta for parasites
and eggs

Paper II —Entomology

Entomology

Biology and Taxonomy

Insect structure and development as seen in grass
hopper and butterfly embryology, post embryonic develop-
ment, metamorphosis the exoskeleton, segmentation, the
limbs mouth parts, other appendages, wings and ven-
ation digestive system, circulatory system, respiration,
excretion nervous system sense organs, reproductive
organs Classification the orders of insects

Economic Entomology

Orders and families of economic importance, classi-
fication identification life histories, food plants, and
economic status of major pest insects of world important
Indian pests not found in North India, all plant and animal
insect pests of North India, pests of stored products, and
insects of commercial value

Natural control

The balance of nature Climate, disease, parasites
and predators Artificial control

Biological control

Utilisation of diseases, parasites and predators,
cultural control, susceptibility and resistance

Chemical and Physical control

Insecticides and fumigants preparation uses, limitations and apparatus for application heat sterilization, crop storage

Crop pests—

The pests of the following crops in Northern India, and application of suitable control measures —

- | | |
|-------------------------------|---|
| (1) Cereals | Wheat, barley, rice, <i>juar</i> , <i>bajra</i> , and maize |
| (2) Fibres | Cotton, Sunnhemp, patsun |
| (3) Oilseeds | Castor, linseed, mustard |
| (4) Legumes | Peas, groundnuts <i>arhar</i> , gram |
| (5) Fodders | <i>Juar</i> , lucerne, <i>guar</i> , oats |
| (6) Miscellaneous crops | Sugar cane, tobacco |
| (7) Cole crops | Cabbage, knol khol cauliflower |
| (8) Roots | Carrots, beetroot, turnip |
| (9) Bulbs | Onion, garlic |
| (10) Tubers | Potato, sweet potato |
| (11) Cucurbitaceous crops | Cucumber, <i>torai</i> , melons pumpkins and gourds |
| (12) Miscellaneous vegetables | Turmeric, ginger, tomato brinjal, <i>bhindi</i> , chillies |
- Beneficial insects of commercial value Silk worms, bees, and lac insects

Practical

Field and laboratory acquaintance with local pests breeding and record of the life-histories

Collection of insects, pinning, setting and classification

Application of control methods in field and store, including preparation and use of insecticides

ZOOLOGY WITH PARASITOLOGY AND ANIMAL BREEDING

Paper I — *Zoology with Parasitology*

(Same as under Zoology with Parasitology and Entomology)

Paper II — *Animal Breeding*

1 Anatomy and Cytology of Reproduction

Reproductive organs of fowl rabbit goat and cattle their anatomy and function Histology and cytology of germ cells Chromosomes Mechanism of maturation and fusion of sex cells

2 Theories and mechanism of inheritance

Variation Natural selection Adaptation Origin of species Definition of species Varieties Mutations Domestication Artificial selection reversion

Breeds and pedigrees

Mendelian rules of heredity Interpretation of chromosome behaviour, their function in inheritance of characters linkage of characters sex linkage sex determination

Galton's theory Bruce Low system of breeding Lines and families In breeding Out crossing Cross breeding

3 Procreation and Development

Fertilisation The embryo Outlines of embryonic development of chick and rabbit The foetus Gestation Parturition Post natal development and nourishment Provision of milk in mammals

4 Objects and aims of breeding Poultry for eggs table or general utility Rabbits for table fur pelts Sheep for meat wool Goats for milk, meat draught Pigs for meat bristles Horses for strength speed draught riding Cattle and buffaloes for milk, work

5 Typical breeds of domestic animals and their characteristics

Poultry (Fowls Ducks Geese Turkeys Guinea fowl) Rabbit Sheep Goats Pigs
Horses Asses and Mules Cattle Buffaloes Camels Elephants

6 Principles and practice of breeding

Selection and fixation of breed Maintenance of purity, improvement within breed Application of Mendelian laws and Bruce Low system Pedigrees Stock registers Inbreeding and out crossing in practice Cross-breeding for utility and for combination of characters for permanent fixation

7 Breeding for Indian requirements

The characteristics of selected breeds of domestic animals with special reference to Indian conditions and requirements Consideration of the merits and failings of each breed with particular attention to breeds of cattle for work and for milk Selection of stock Inheritance through sire and dam Milk and work records Thriftiness Weeding out —

Poultry Sheep Goats Pigs Horses Asses
Mules Cattle Buffaloes Camels

8 Breeding hygiene

Care of breeding stock Mating Sterility causes and precautions Care of pregnant females Delivery Care and maintenance of young stock Common pests and diseases their prevention and treatment

9 Stock accounting

Practical

Elementary anatomy of reproductive organ Elementary cytology of oögenesis spermatogenesis Maturation and fusion of sex cells Embryonic and foetal development Experience of poultry and cattle breeding and maintenance records and accounts Visits to poultry horse and cattle-breeding farms

Practical work with the college herd and visits to poultry horse and cattle breeding establishments in addition

RURAL ECONOMICS AND ESTATE MANAGEMENT

Paper I —Rural Economics

1 Fabric of rural life, its unitary character History of growth of village life, factors contributing to its development or decay General description of village population, geography, occupations, administration, education, sanitation and similar matters affecting the village

2 Ways of making a living in the village, effect of civilization and commercialization on cost and standards of living, effect of modern system of education, contact with outside world and its effect, drift to towns, flow of money remitted from outside Causes leading to poverty and indebtedness, fragmentation of holdings, enforced idleness and failure to conserve and utilize rural resources, social disintegration, drink and other social evils, social and religious customs, caste taboos

3 Indigenous forms of co operation as a factor in village life and organisation including arts, crafts and agriculture

4 The scope of village occupations Kinds, classes and conditions of farming Subsidiary occupations such as bee-keeping, poultry, rope and basket making, extent to which spare time can be utilised, possibilities of utilization of mechanical and electrical power

5 Rural reconstruction difficulties—financial or other Special problems Insecurity of life and property, inadequate transport facilities Comparative lack of amenities

Paper II —Estate Management

1 *Land Laws* —The knowledge of the land revenue and the rent law, Records of agricultural rights, The history and the present structure of the Zamindari and Tenancy A general survey of land system in other provinces and countries

2 *Organization and administration of estates —* Taluqdari and Zamindari systems Organization of the estates in U P Staff and their duties difficulties in collection of revenue and how to meet them, methods of enhancing income, disputes arising out of questions of land, and water and revenue and how to deal with them, ways of avoiding unnecessary litigation, easements and other customary rights, proportion of expenditure and income on estates and causes of variation

3 *Improvements —* Possibilities of investment of part of income by landlord in land development Judicious investment of capital for productive purposes such as in sugar machinery, water pumping plants machinery for eradication of weeds tractors improved transport, roads communication, methods by which tenants can be induced to undertake improvements in their holdings, cattle improvement, estate sanitation, advantage of educating tenantry

4 *Personal Farming and Management of Sir land —* Acquiring of land by the landlord for his own cultivation and difficulties attending the process, advantages of cultivation by resident landlords as against absent landlords

PRACTICAL

Part I —

Note.—The treatment should be generalised and not specialized

Study of village life with special emphasis on the following points —

- (1) Acquaintance with the principal factors affecting the gross and net profits of agriculture cattle breeding, dairying and subsidiary rural industries
- (2) Acquaintance with the principal elements and their relative ratios in family budgets for the different strata of village society
- (3) Practical acquaintance with problems of marketing

Part 2 —

(1) *Surveying.*

Plane chain survey of irregular plots including the use of offsets and calculation of areas in acres ; reduction of bearings

Plane table survey, plotting from surveyor's field-book ; use of prismatic compass and levels

- (1) Maintenance of Patwari papers and Court of Wards records
- (2) Record of visits to Court of Wards and Zamindari offices
